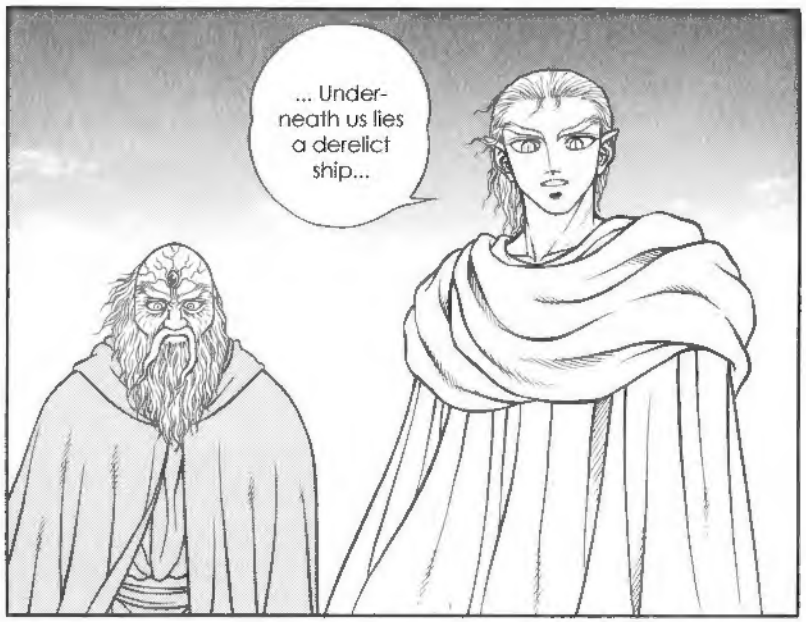
Here it is...



... Underneath us lies a derelict ship...

Arizona, around 420 years ago
Guyver Advocacy

... Fortunately the memory unit is still functioning...
The structure has been in ruin for some time now, but...

...This is the last functioning device for vital maintenance..
The ship that is found under the sanctuary of the island Silha lost the memory unit because of a serious accident that happened a long time ago...

... To create, using the knowledge that you obtain from this memory unit, soldiers in a position to become my followers...
Your task is...
Hamical ...
I can assist you...

Oh...

Yes...
THIS IS NOT A RE-QUEST!
Under-stood?

... OF COURSE!

Curses...

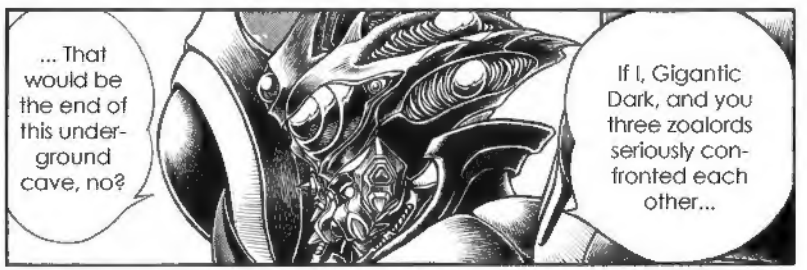
... How dare you desecrate our most sacred place with your filthy body...

DARK! GIGANTIC . . .

NOW YOU HAVE FALLEN INTO OUR HANDS! YOU WILL NOT HAVE ANY CHANCE OF ESCAPE!
FINALLY TODAY I WILL KILL YOU!
MEET DEATH AT MY HANDS!
Guyver Advocacy

... Do you really wish to turn this place into a battle field?

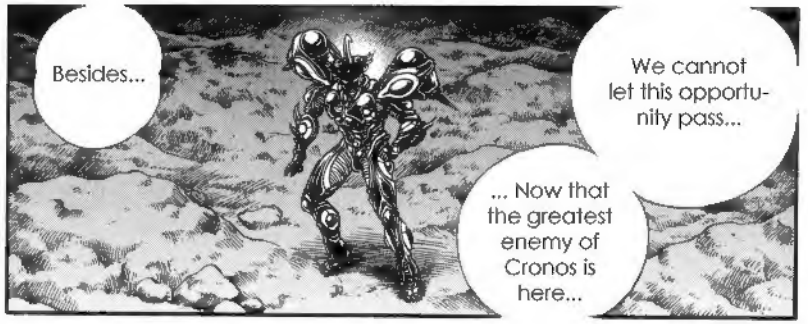
!!



... That would be the end of this underground cave, no?
If I, Gigantic Dark, and you three zoalords seriously confronted each other...

... you find so amusing?
What is it...
He he...
He he he...

You are very sure of yourselves...

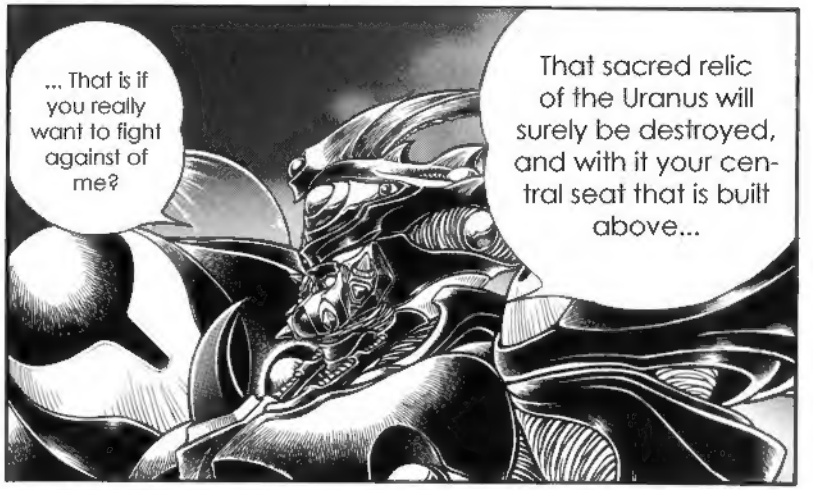


Besides...
We cannot let this opportunity pass...
... Now that the greatest enemy of Cronos is here...

Doctor ...

... Even if we did lose the central seat.
... I am sure that if we destroyed it our lord Alkanphel would pardon us...

TODAY WE WILL DEFEAT YOU, AT ANY COST!
LISTEN TO ME, GIGANTIC DARK... OR RATHER, AGITO MAKISHIMA!



... That is if you really want to fight against of me?
That sacred relic of the Uranus will surely be destroyed, and with it your central seat that is built above...

Doctor Balcus?

It is inevitable...

!?

THEN I WILL ALSO SHOW MY UTMOST POWER!
PERFECT!
I under-stand...
Wafer-danos...

WHAT?!

URGH!
What is this dark stuff?!
Hair ?

... YOU WOULDN'T DARE TOUCH THIS SACRED RELIC OF THE URANUS NOT EVEN WITH A FINGER!
BUT...
Agito ..
. As a gift in return for your death .
We offer you the cen tral seat

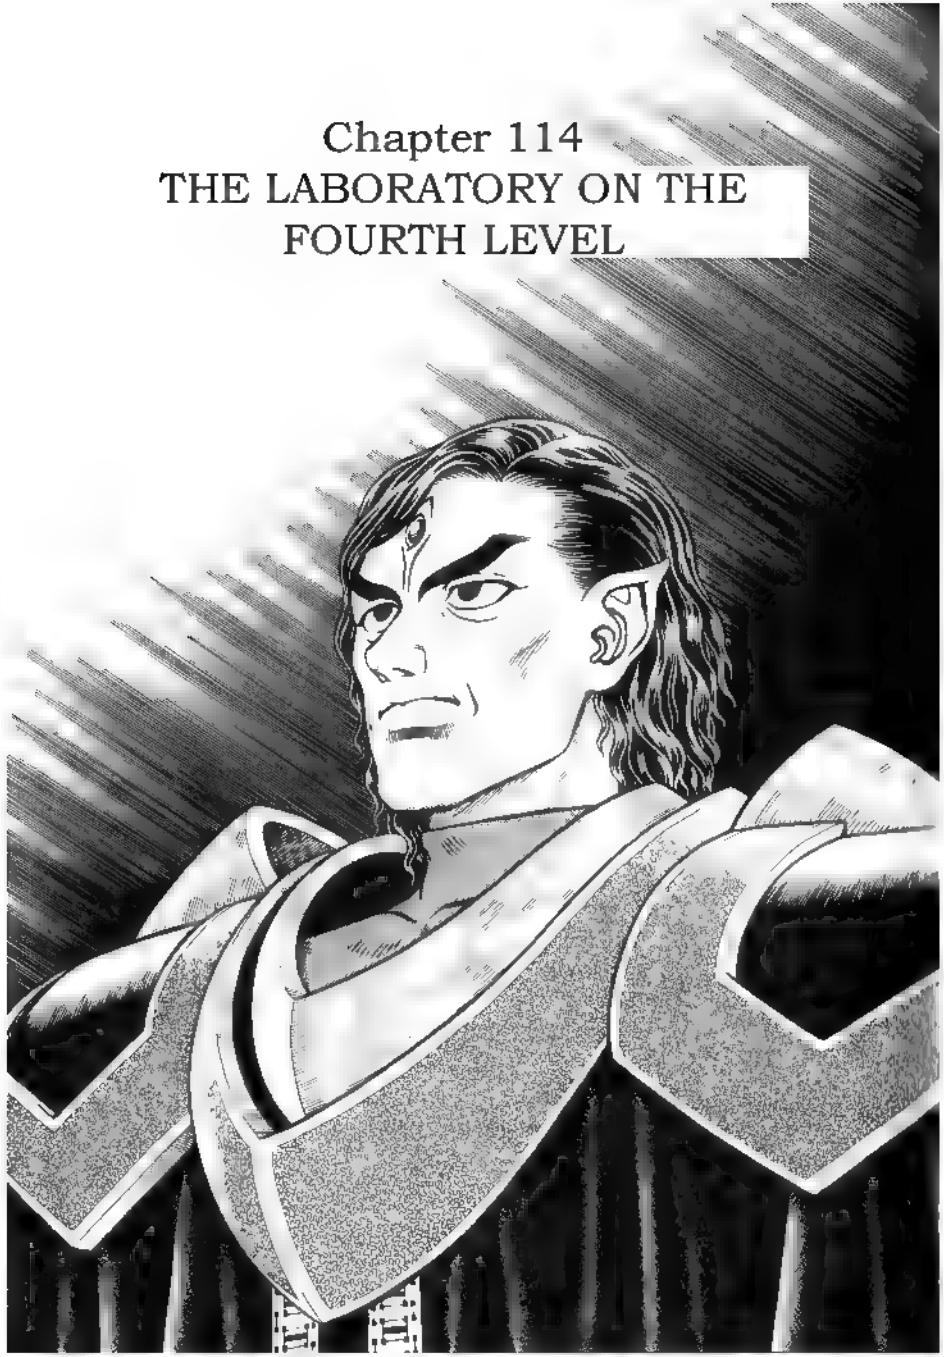
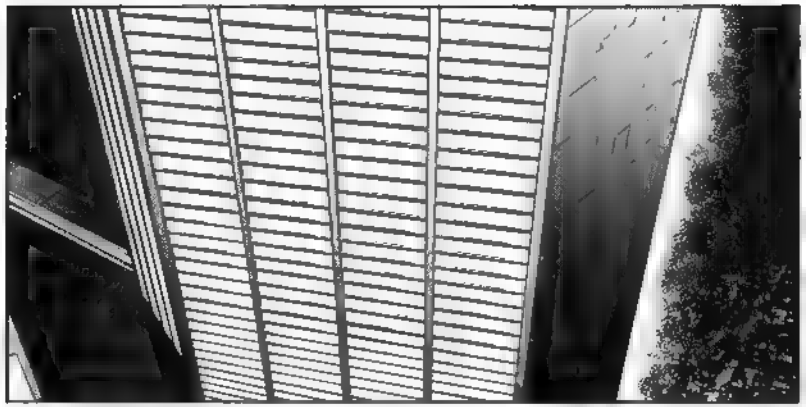
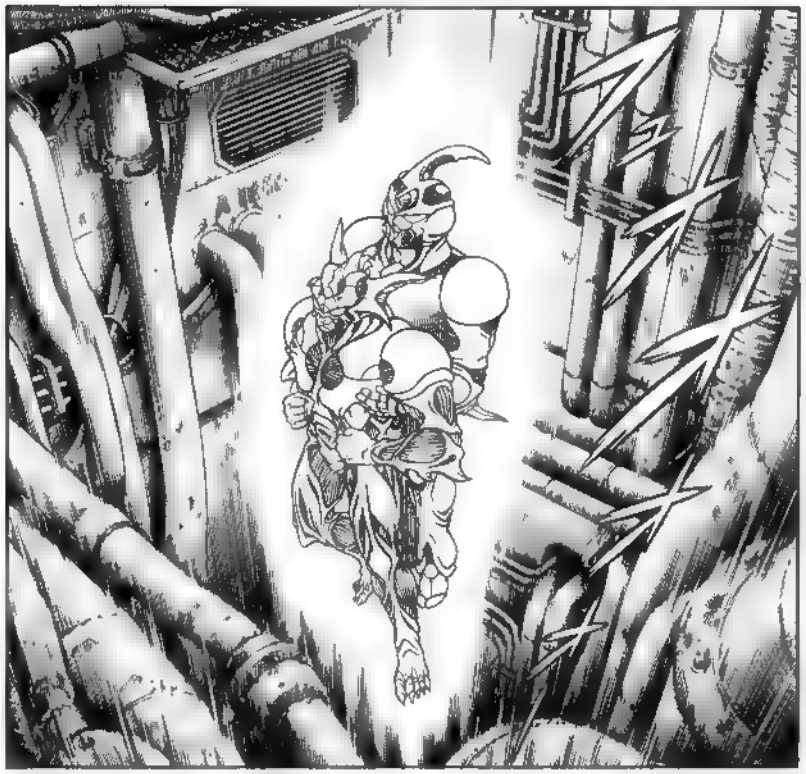
Chapter 114
THE LABORATORY ON THE FOURTH LEVEL





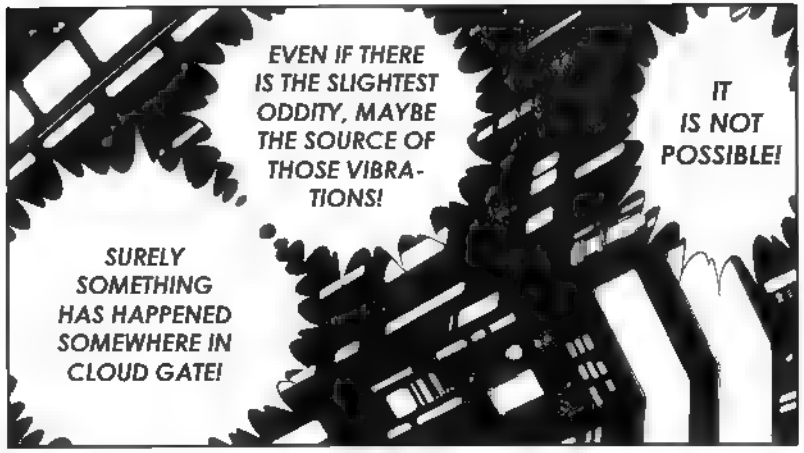


All the sections are working to requirements?
But?
Cloud Gate - Data control section
Guyver Advocacy

It seems that someone has interrupted the intelligence communications deliberately.

But then...

... COULD IT BE THEIR DOING?!

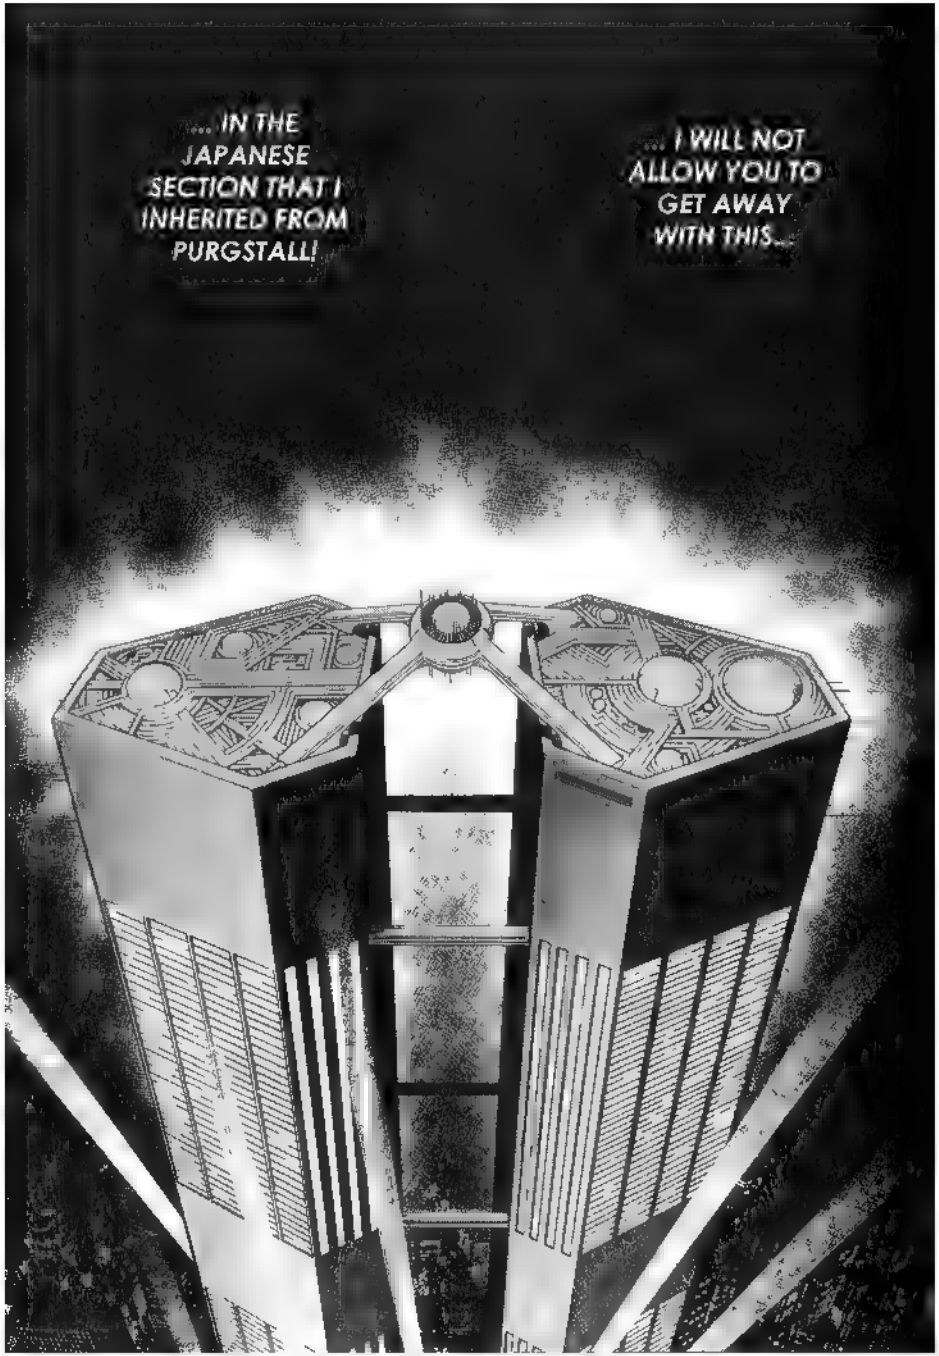


EVEN IF THERE IS THE SLIGHTEST ODDITY, MAYBE THE SOURCE OF THOSE VIBRATIONS!
IT IS NOT POSSIBLE!
SURELY SOMETHING HAS HAPPENED SOMEWHERE IN CLOUD GATE!

. We suspect that the epicenter is underground, but..
Err Yes

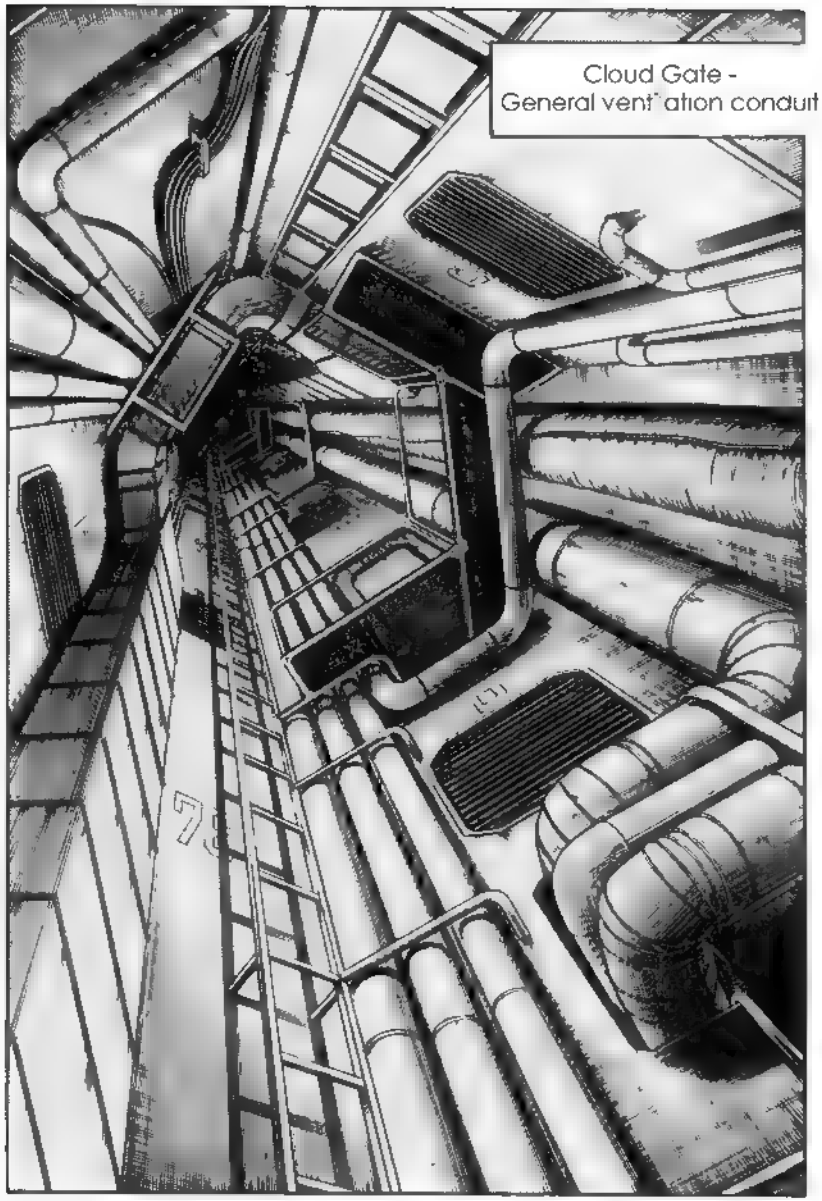
I wonder... ... Something isn't right about this situation.

There doesn't appear to be any particular anomoly in the underground instrumentations



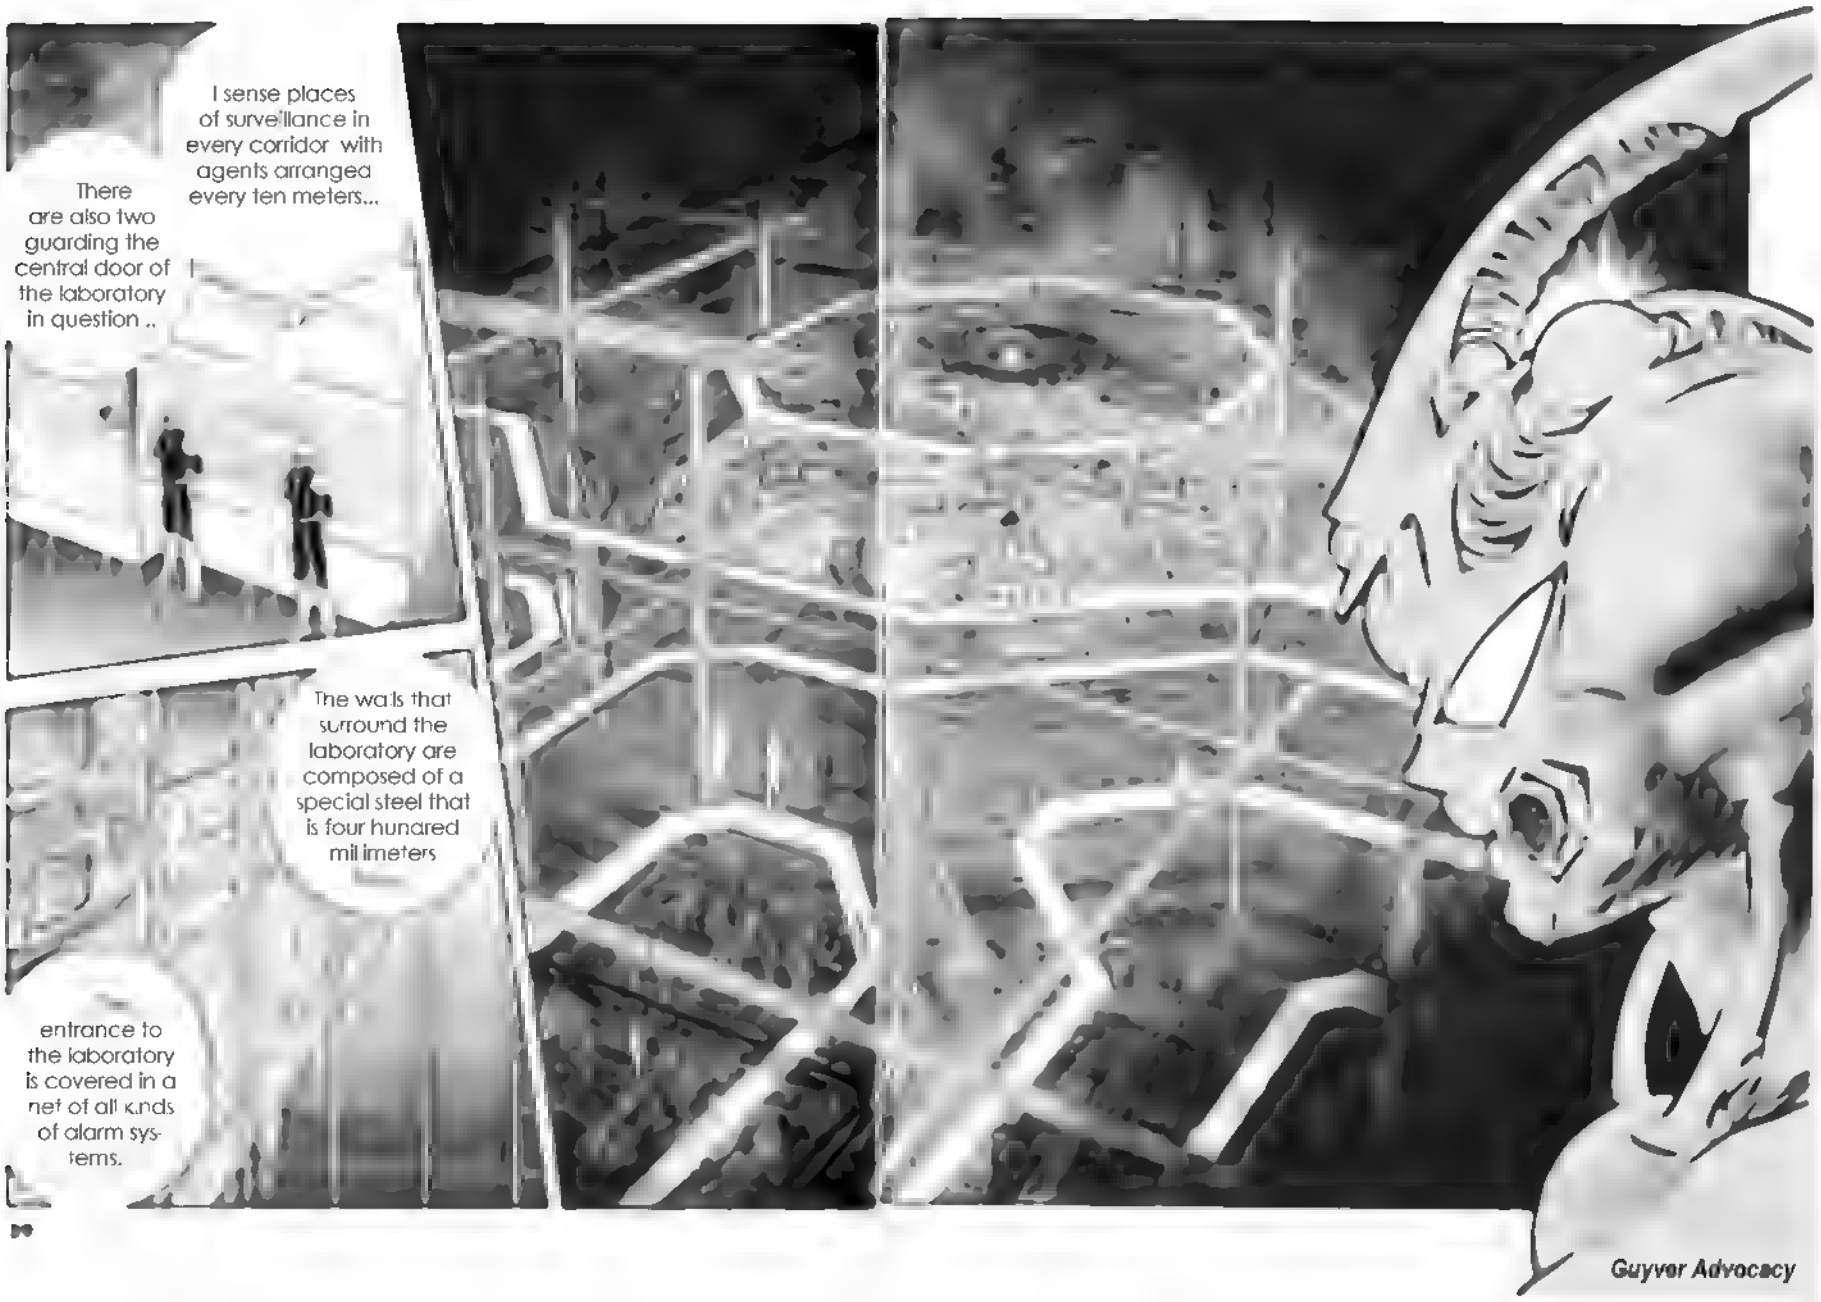
... IN THE JAPANESE SECTION THAT I INHERITED FROM PURGSTALL!
... I WILL NOT ALLOW YOU TO GET AWAY WITH THIS...

...
Excel ence?
Send personne straight to the underground areas to investigate on the cause of the vibrations!
And then
Re check the monitoring systems for all sections immediately!
Perform a general report. .
Yes Sir!
I do not know what you are plotting, but...
Jarvil, Kabrahl and Krumeggnic...

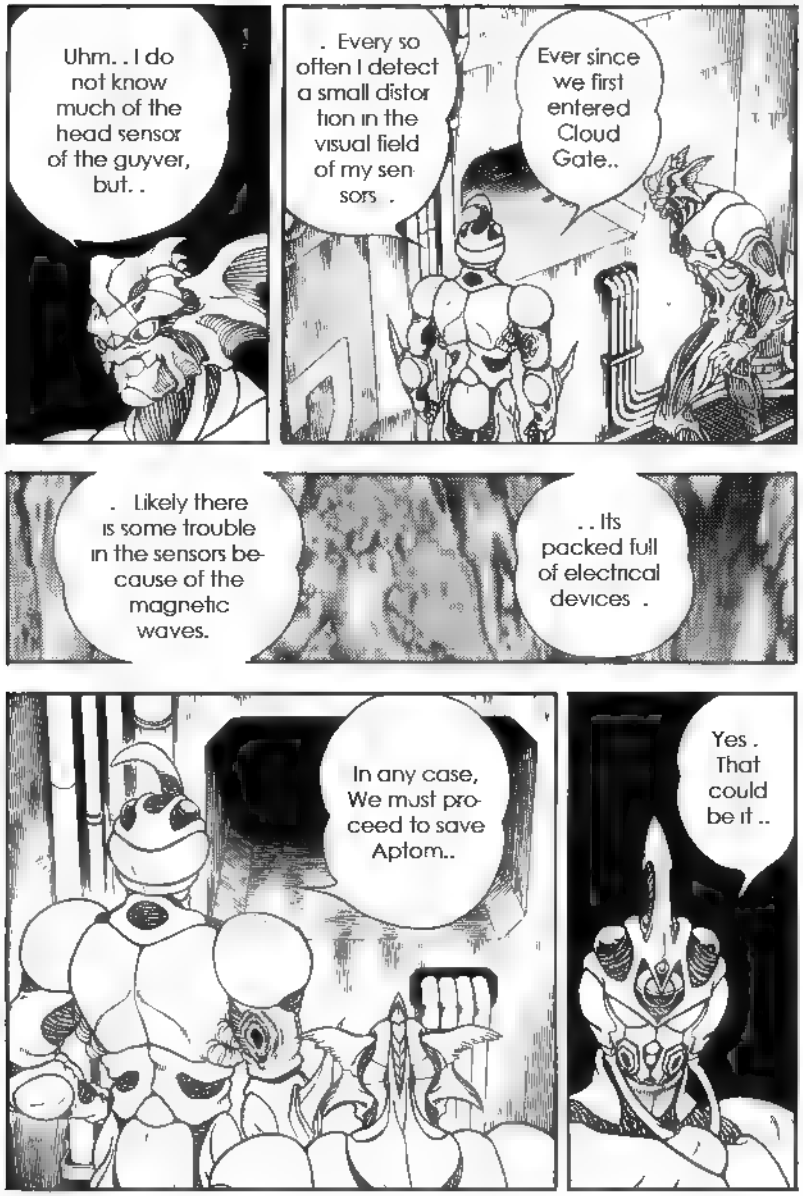


Cloud Gate -
General ventilation conduit

Ninety seventh floor
It must be here
Really
We will be able to arrive in the room next to the laboratory on level 4 where Aptom is held
Going through this duct
Sho
Can you monitor the situation around here ?

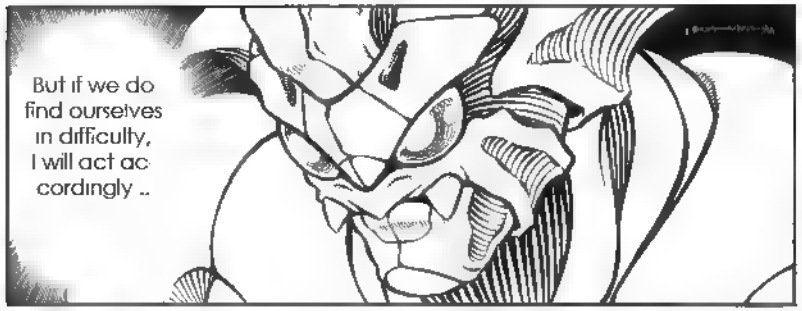


I sense places of surveillance in every corridor with agents arranged every ten meters...
There are also two guarding the central door of the laboratory in question ..
The walls that surround the laboratory are composed of a special steel that is four hunared millimeters
entrance to the laboratory is covered in a net of all kinds of alarm systems.

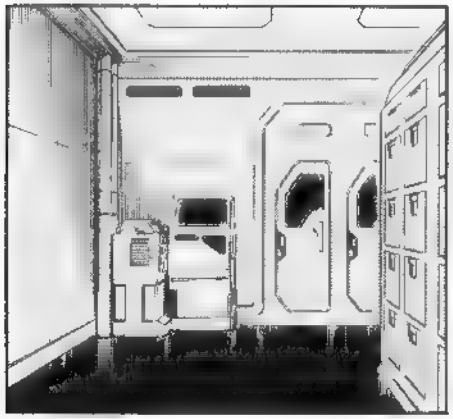


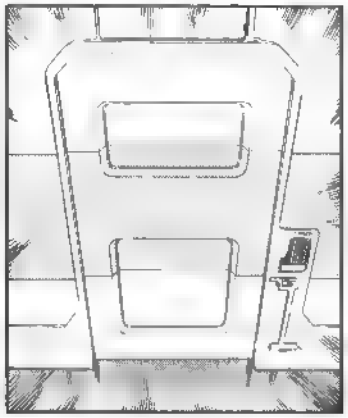
Uhm. . I do not know much of the head sensor of the guyver, but. .
. Every so often I detect a small distor tion in the visual field of my sen sors .
Ever since we first entered Cloud Gate..
. Likely there is some trouble in the sensors be- cause of the magnetic waves.
. . Its packed full of electrical devices .
In any case, We must pro- ceed to save Aptom..
Yes . That could be it ..

And to the inside of the laboratory?
.. But it is not distinguished very well.. Likely it is petrifying swiftly ..
To the center of the room I perceive a figure that could be Aptom .
And then. . There is no one else in the room.
What is it?
!?
Noth- ing.



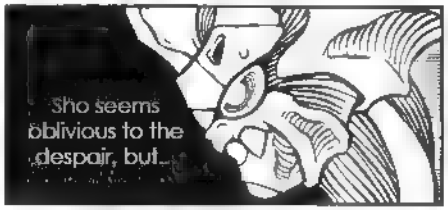
But if we do find ourselves in difficulty, I will act accordingly ..



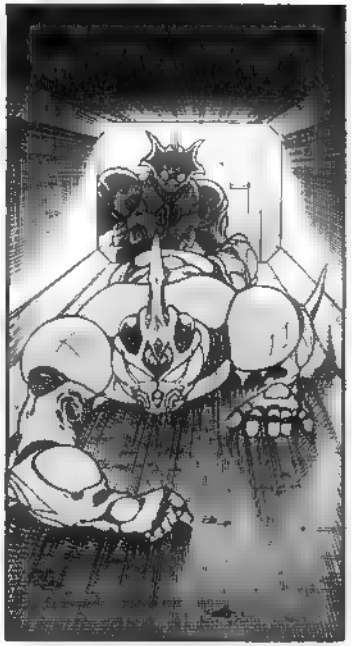


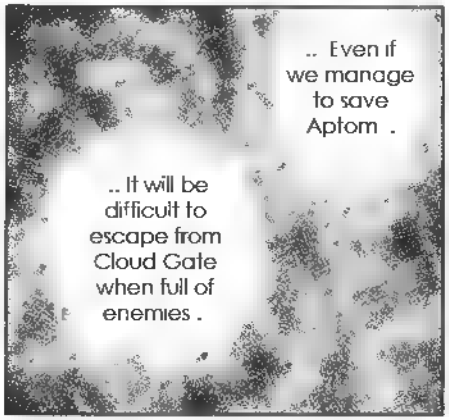
Not even the bio-armour will find it easy to fully heal any time soon. .

the wounds that were caused during the battle against the Enzyme three.

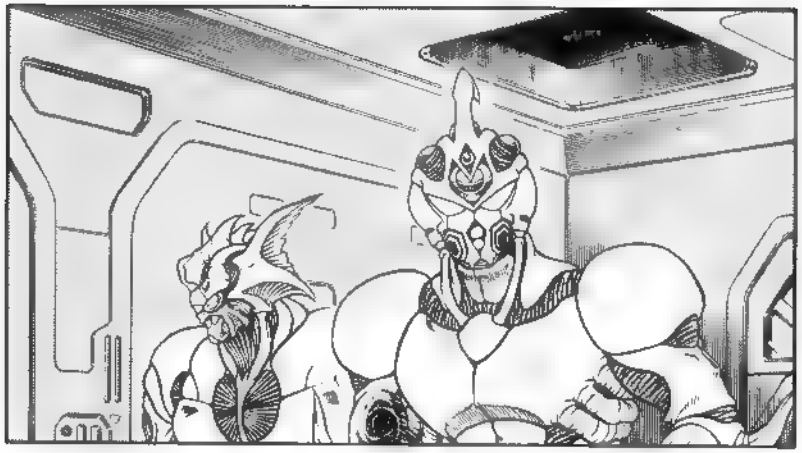


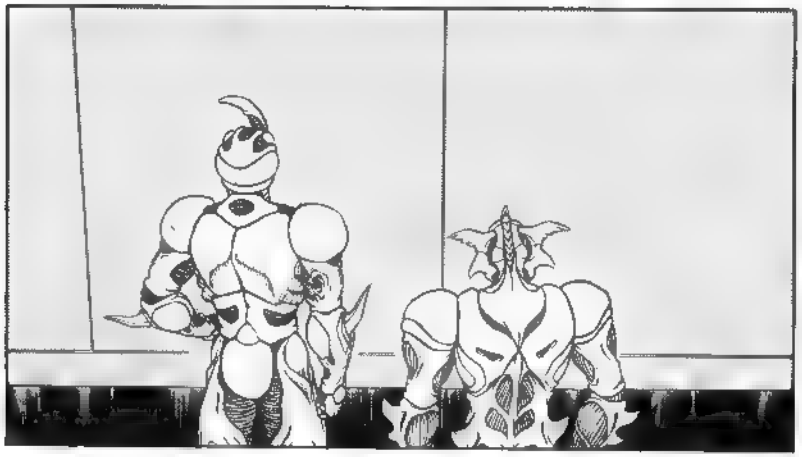
Sho seems oblivious to the despair, but..

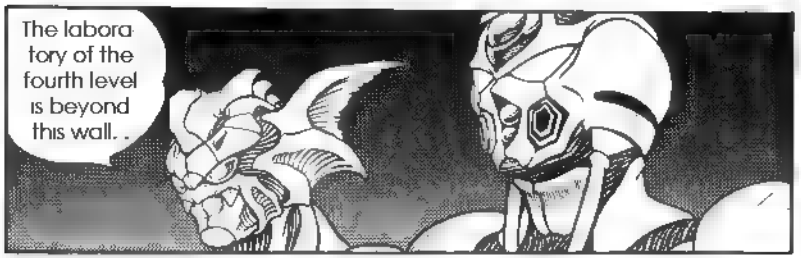




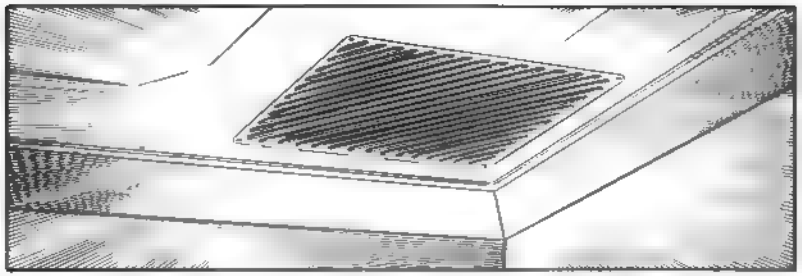
.. Even if we manage to save Aptom .
.. It will be difficult to escape from Cloud Gate when full of enemies .

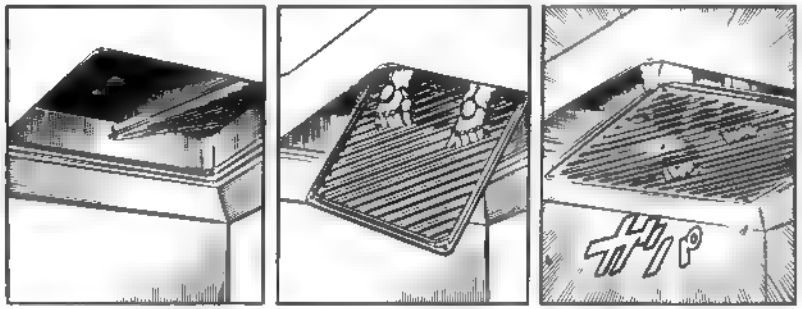






The labora tory of the fourth level is beyond this wall. .





Stand back

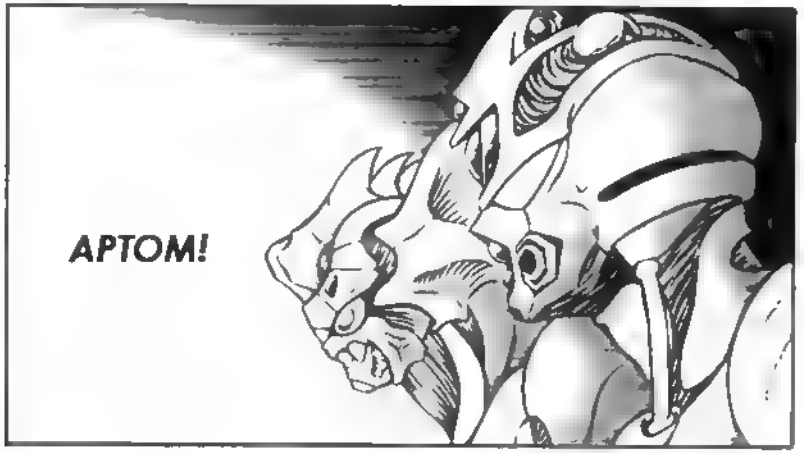
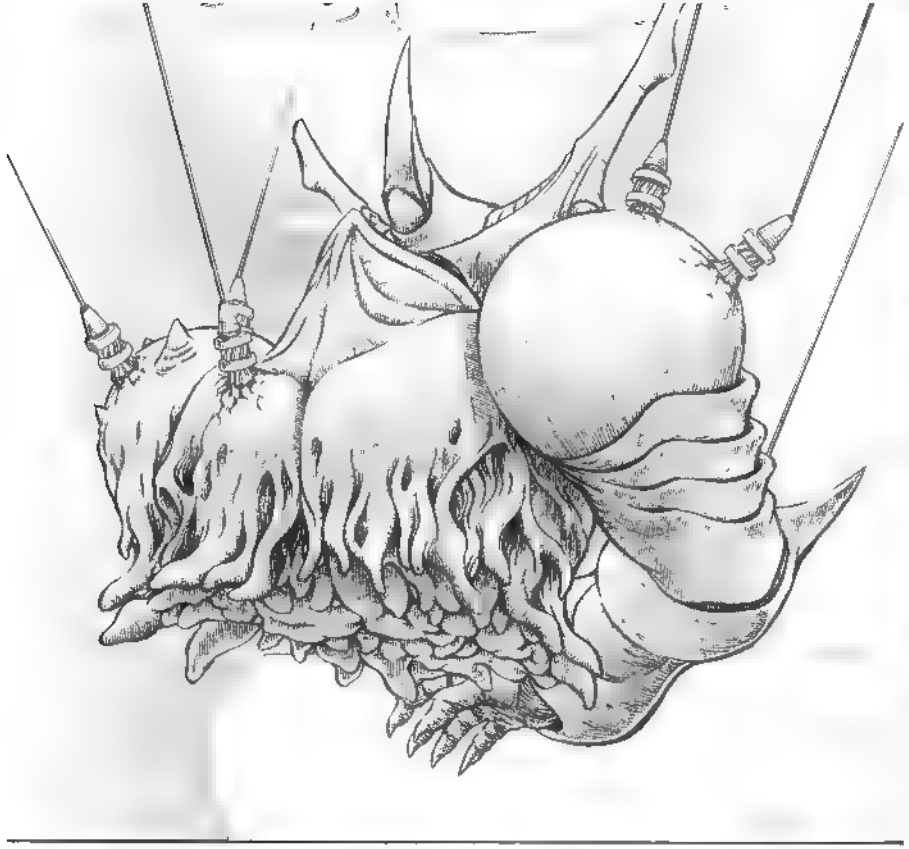
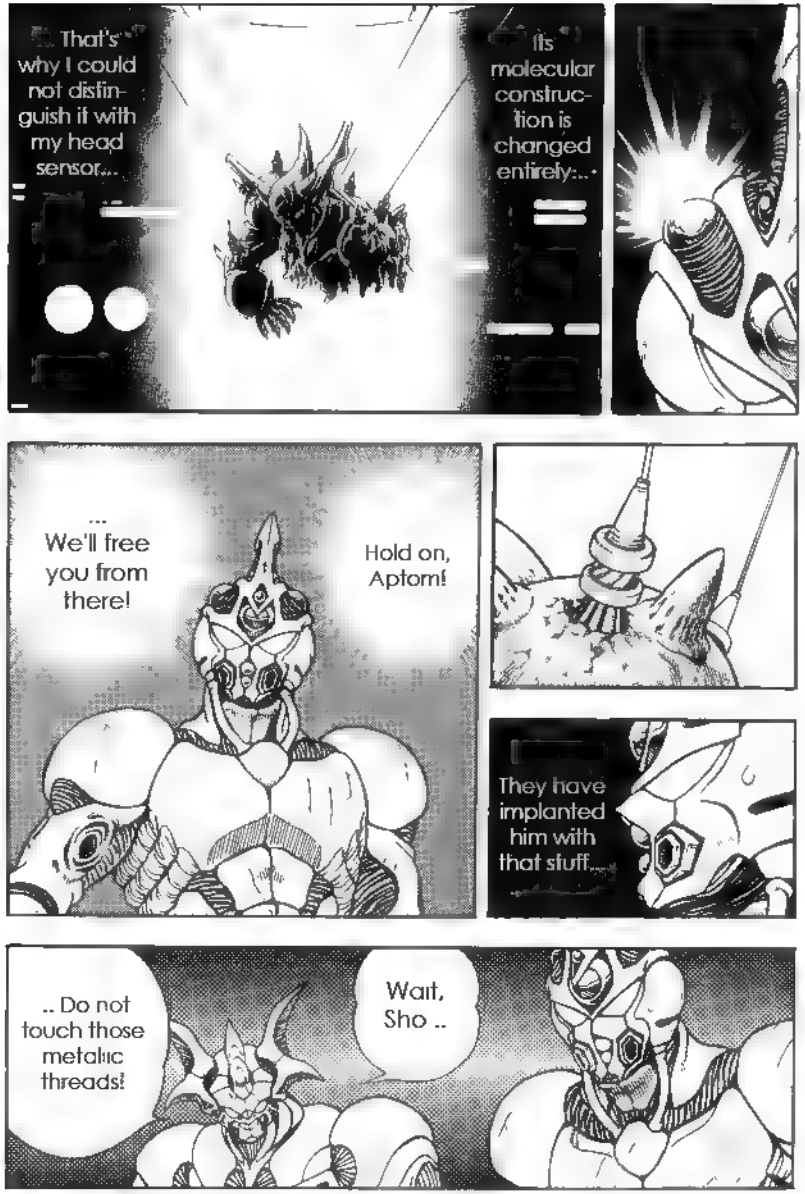
Chapter 115
INVISIBLE PURSUER





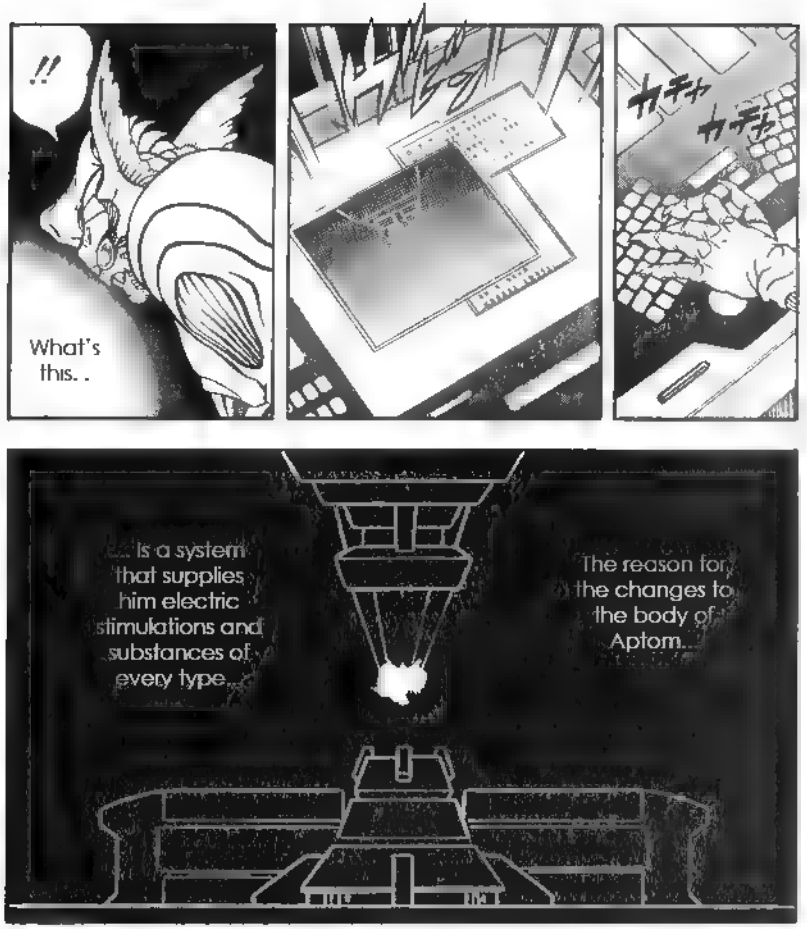
Aptom.
How did
they do this
to you?

Ah, I see .
.. good point. .
.. Cutting them could activate some hidden trap .
I do not believe it serves simply to restrain.
. How can we save Aptom?
But then ..
. If I succeed to deactivate the trap, we will be able to free Aptom from there..
I will try to activate it...
The console is. There..

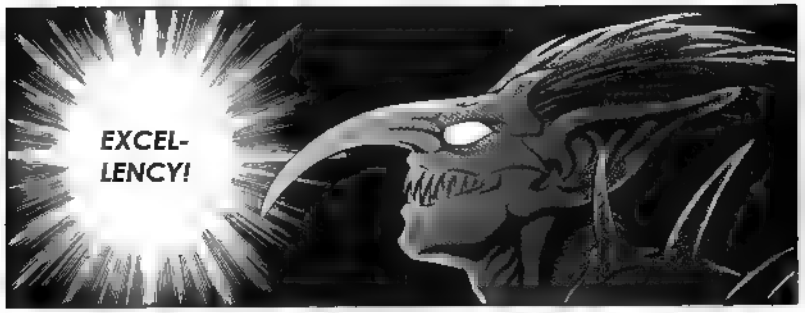


That's why I could not distinguish it with my head sensor...
Its molecular construction is changed entirely:..
... We'll free you from there!
Hold on, Aptom!
They have implanted him with that stuff...
.. Do not touch those metalic threads!
Wait, Sho ..

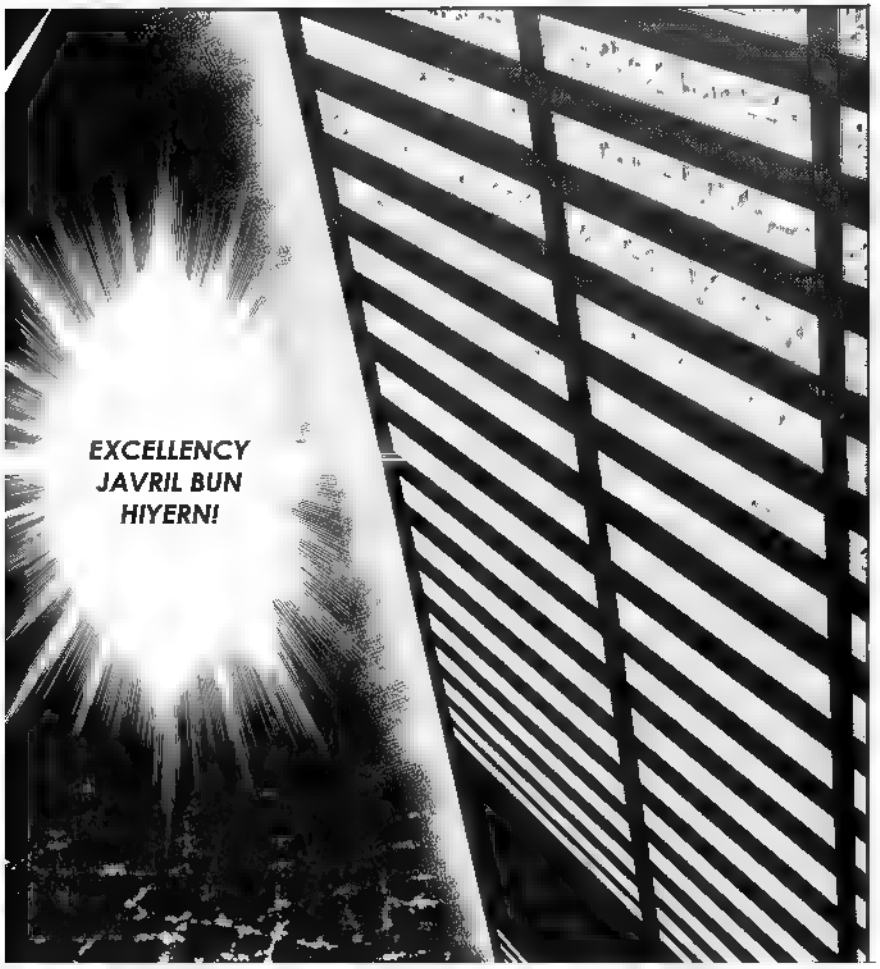
...If I should screw something up...
I have to be very cautious...
. I could kill it rather then save it ..
. I'm getting a distortion in the visual field of my sensors?!
Again. .
!!



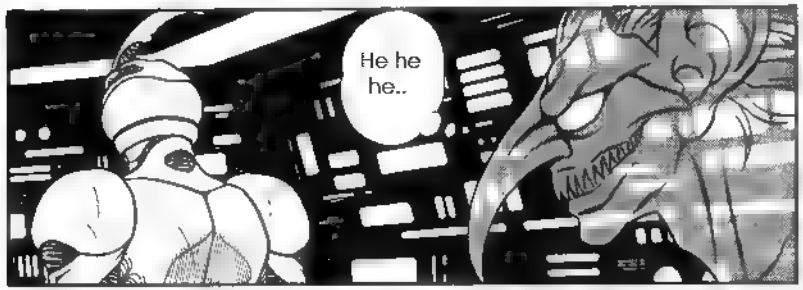
!!
What's this. .
カチャ カチャ
... is a system that supplies him electric stimulations and substances of every type...
The reason for the changes to the body of Aptom...
. Or it could kill him instantly!
it would either return him immediately to a comatose state
In this case with Aptom if he attempted to flee .



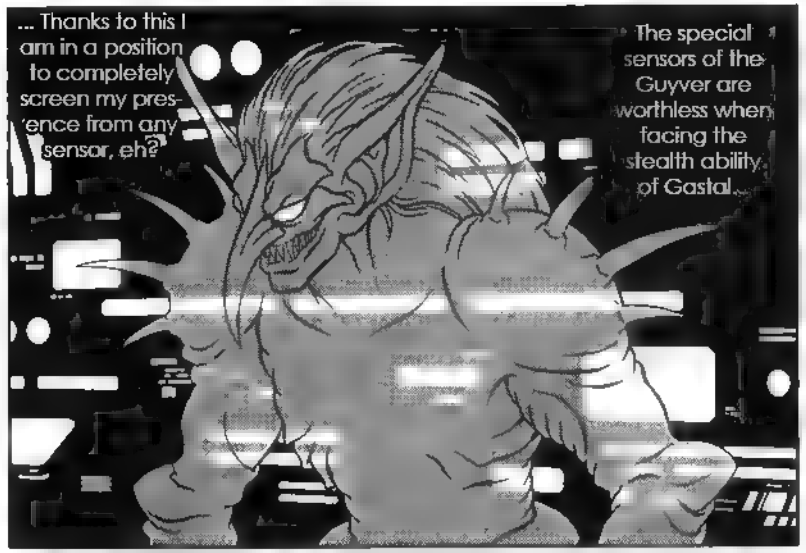
EXCEL-
LENCY!



EXCELLENCY
JAVRIL BUN
HIYERN!



He he
he..



... Thanks to this I am in a position to completely screen my pres-ence from any sensor, eh?
The special sensors of the Guyver are worthless when facing the stealth ability of Gastal...

Guyver and the other have penetrated into the laboratory on the fourth level .

.. They managed to arrive until now without any real obstacles thanks to our trap .
He he. Perfect .
Good ..

It was all perfectly orchestrated to capture that Guyver One. .

..However it seems that they could still escape with force
That was an acci dent..
To think we had been frightened to use the underground section for proc cessing. .

In effect .
It would all have been pointless if it died here. .

However in that case, there are still other valid subjects. .
.. Then we would have to ask the star of the show .

... to ascend upon the stage ..

The head sensors of the Guyver were not able to fully intercept it, but...
I knew it!
Eh
Sho! What that devil happened?!

!?
AAARGH!

I did not know .
But . How did you know of my presence?!
Then I managed to estimate your possibe position
And since you entered this laboratory, I began to feel more aware .
But I sensed that there was something that aroused suspicion in myself
He he he. . That's right!
AND NOW IT IS TOO LATE!
. It was following us from the start?!
You mean to say that.

This...
.. It is the cause of the trouble in the visual field of my sensors. .
Guyver Advocacy

. . But never would I have imagined that it would have gone exactly how they had expected it. .
I knew that there would have to be some trap .
Tsk. .

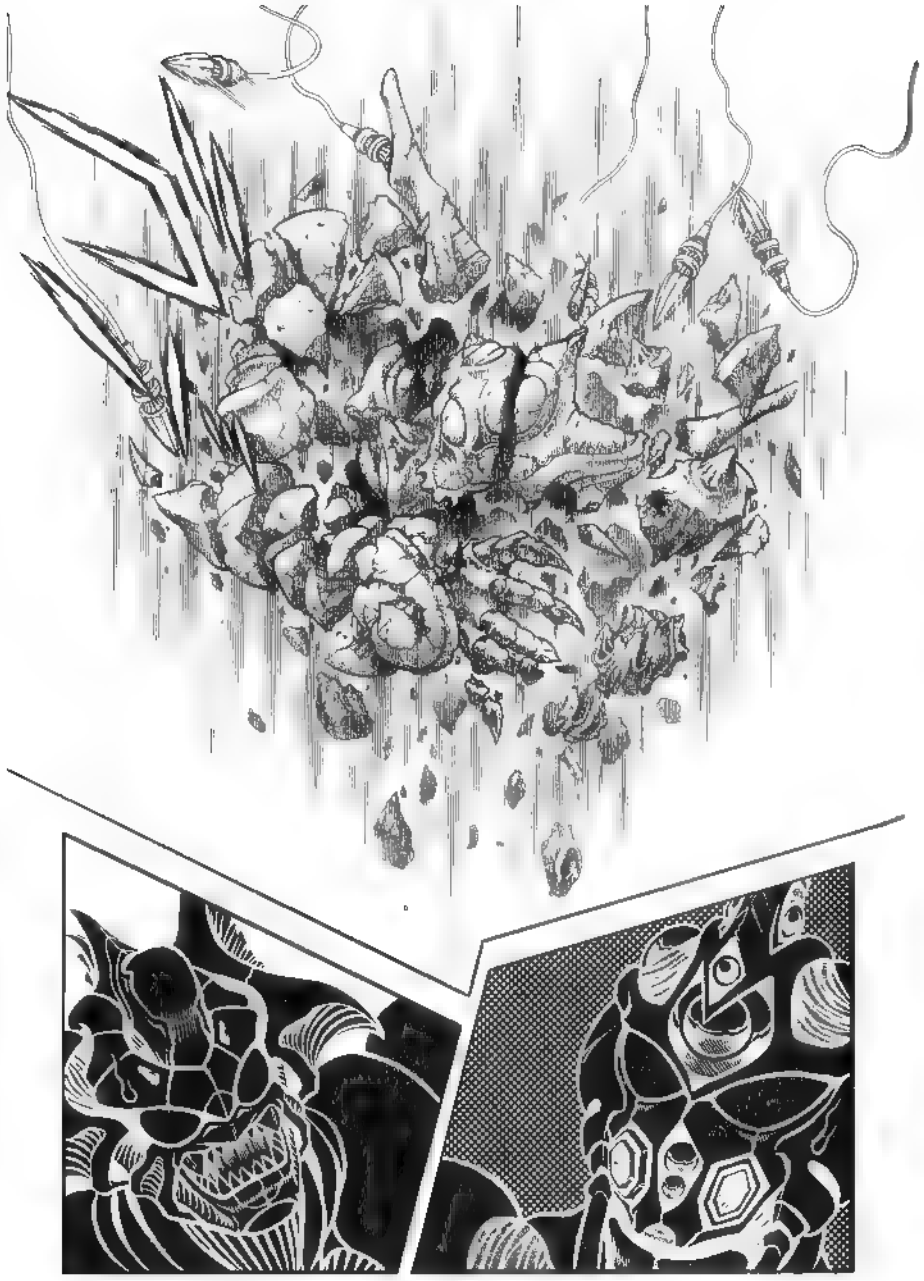
... Now, this laboratory will be...
My task was to ensure that you arrived here without obstacles...
You are like mice in trap!

... YOUR GRAVE!

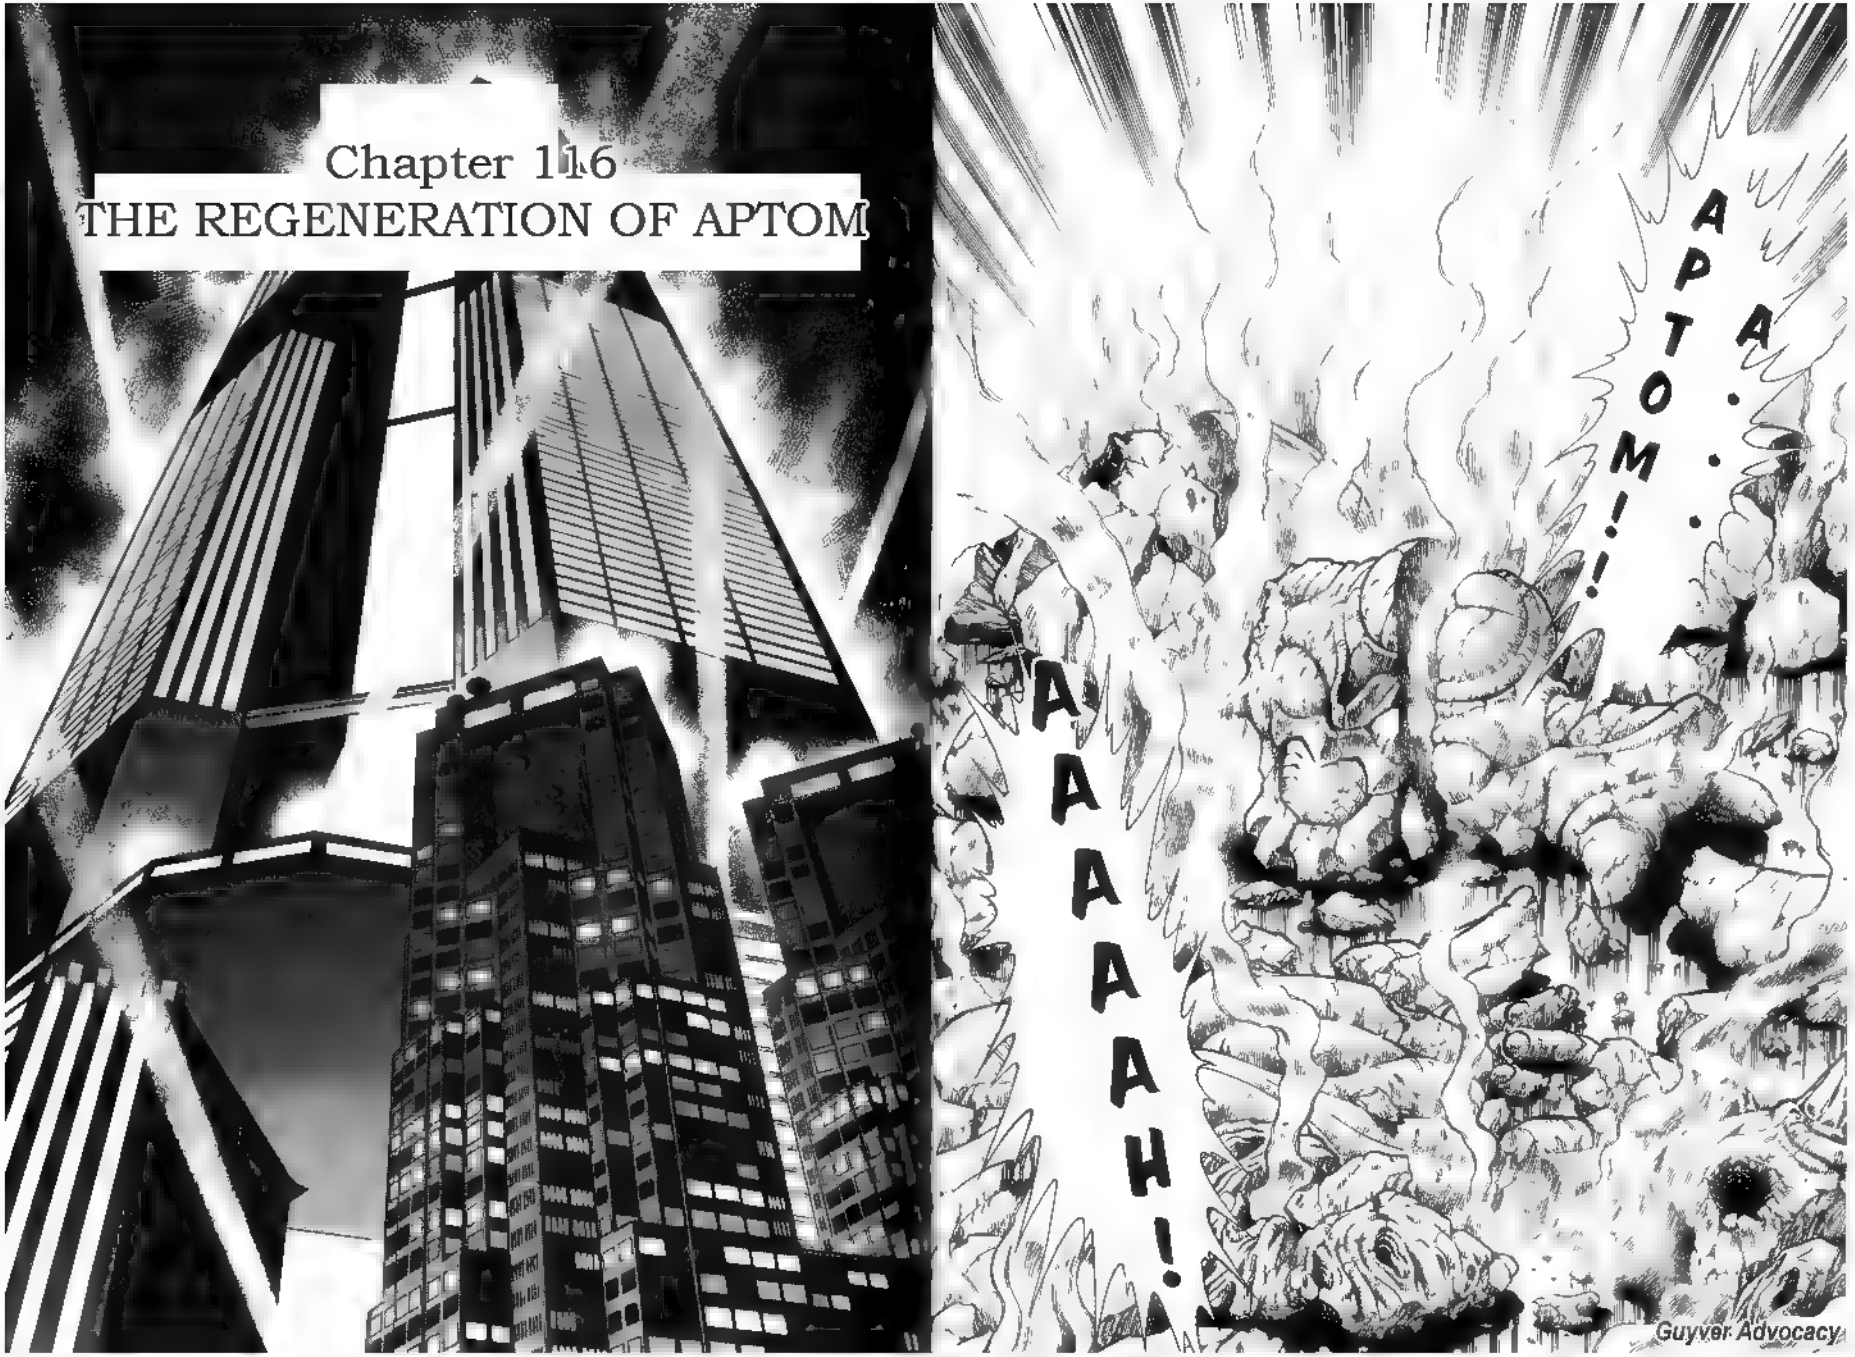
WH...
WHAT?!
Guyver Advocacy

APTOM!
Heh . Hehehe!
AAARGH!
... We have to stop that mecha-nism
Ha .. Hayami.. We have to .
SHO?!

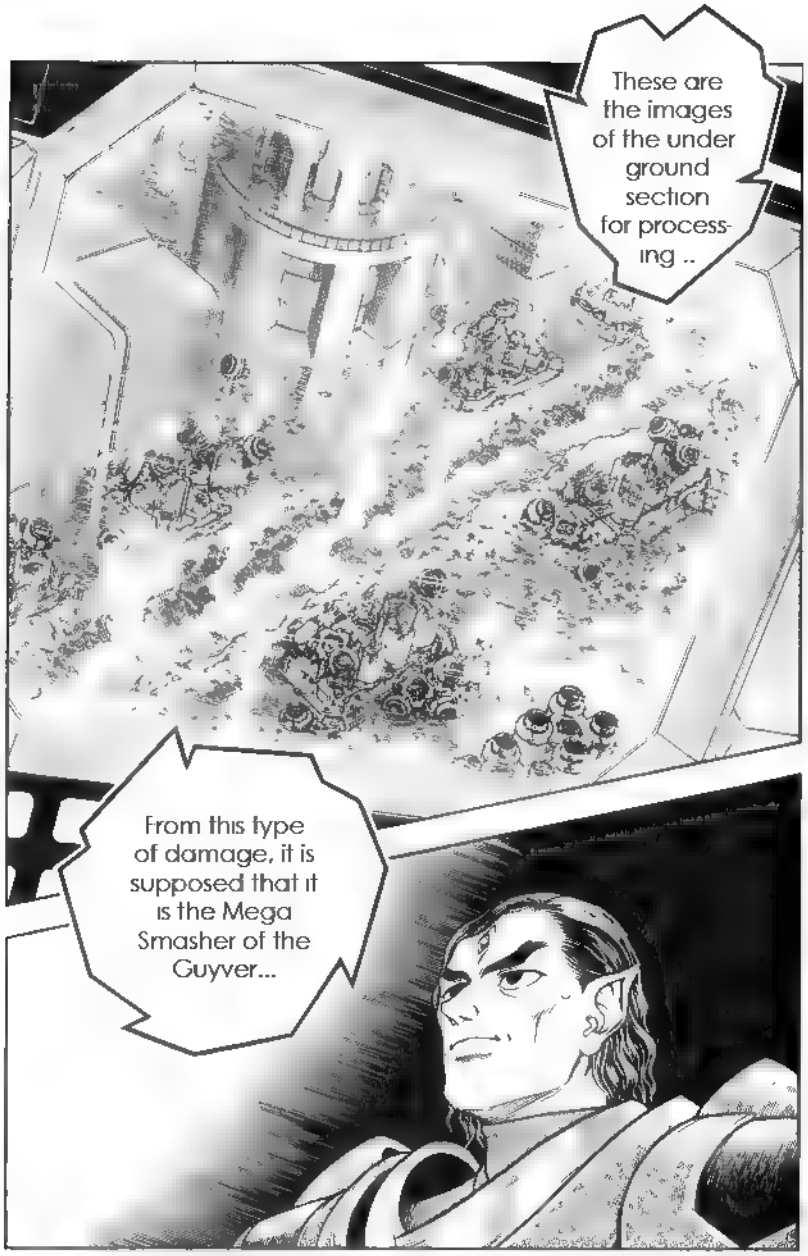
?
?
. It must be activating?
What. .
HAYAMI, LOOK AT APTOM!



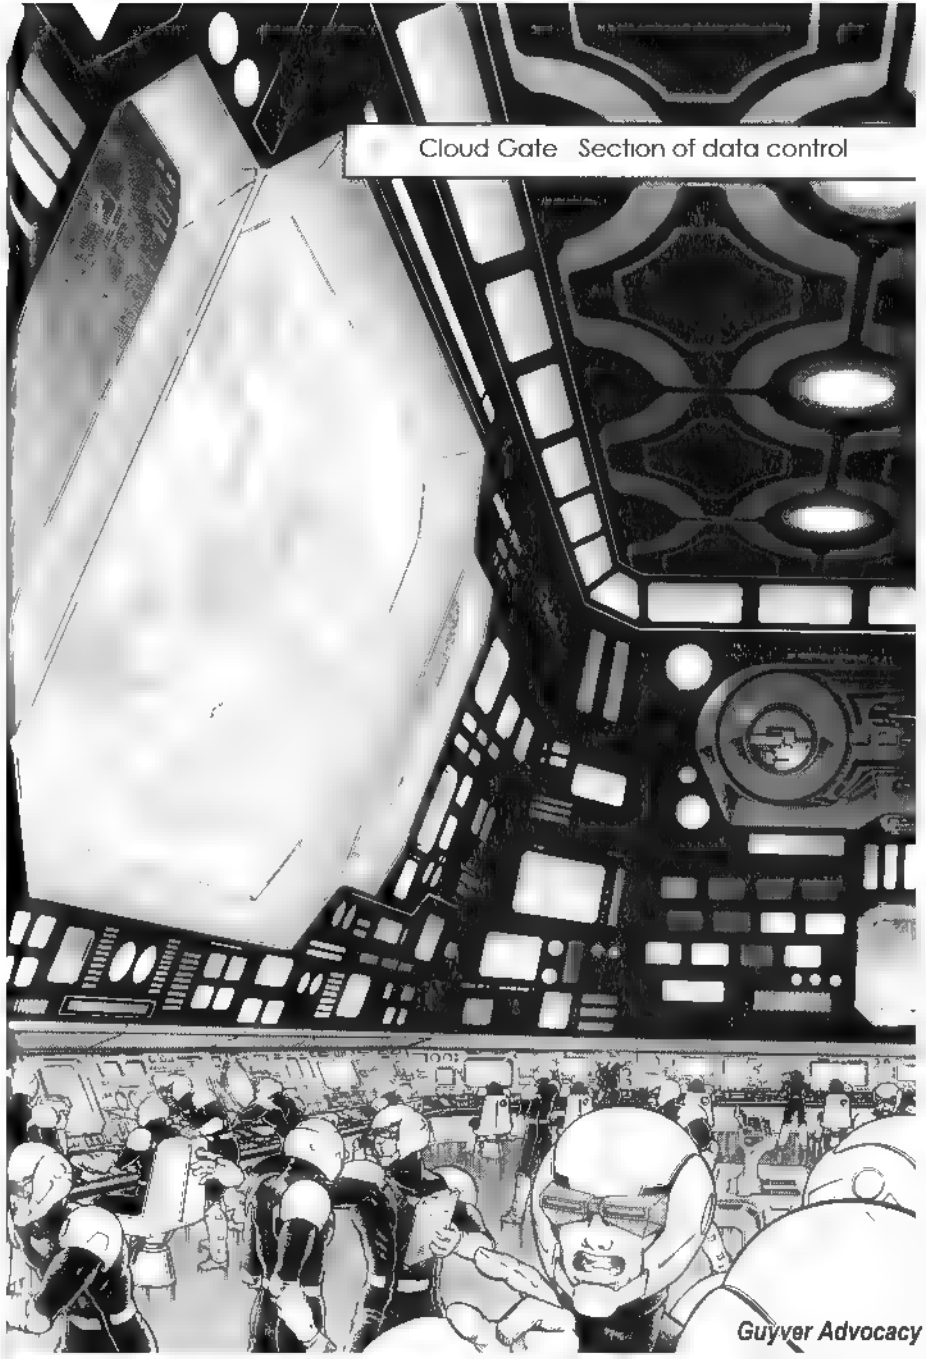
I cannot stop it?
Aah..
AH..
The reaction is irrevers ible?!
!!
A.. APTOM?



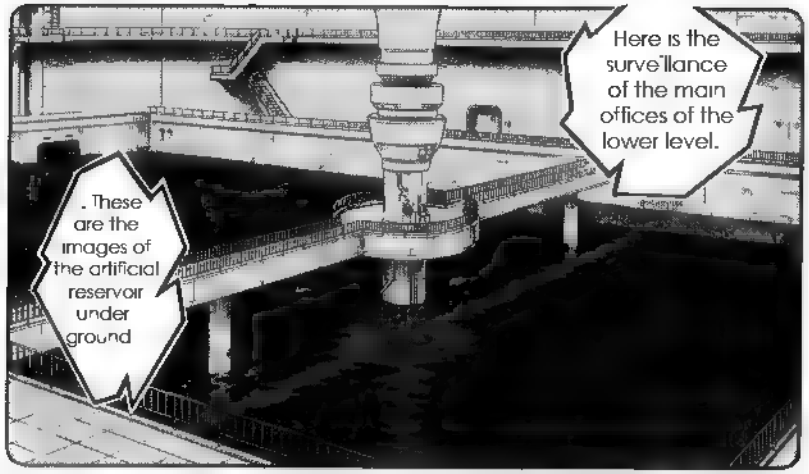
Chapter 116
THE REGENERATION OF APTOM
AAAAAH!
APTOM!!
A...A...
Guyver Advocacy



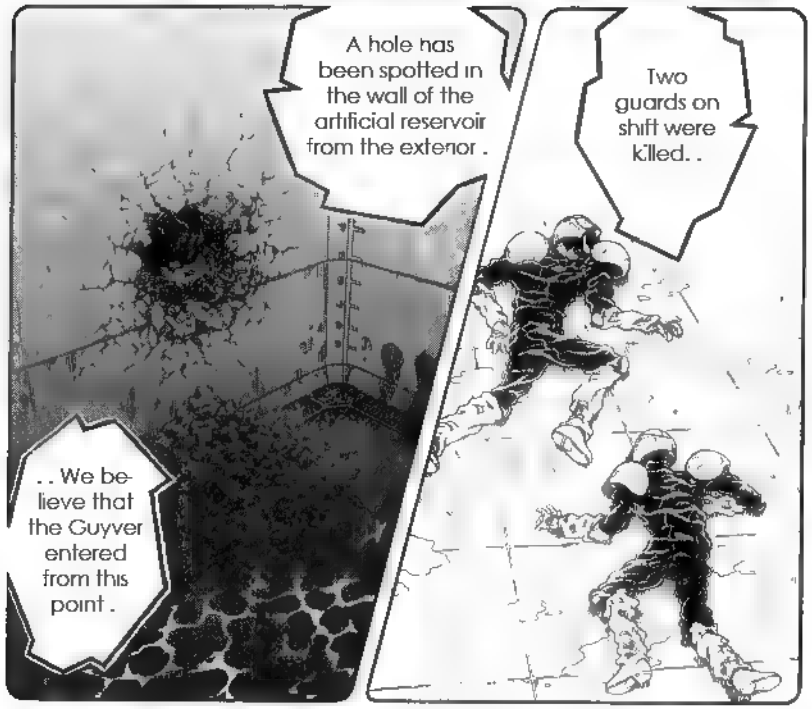
These are the images of the under ground section for process-ing ..
From this type of damage, it is supposed that it is the Mega Smasher of the Guyver...



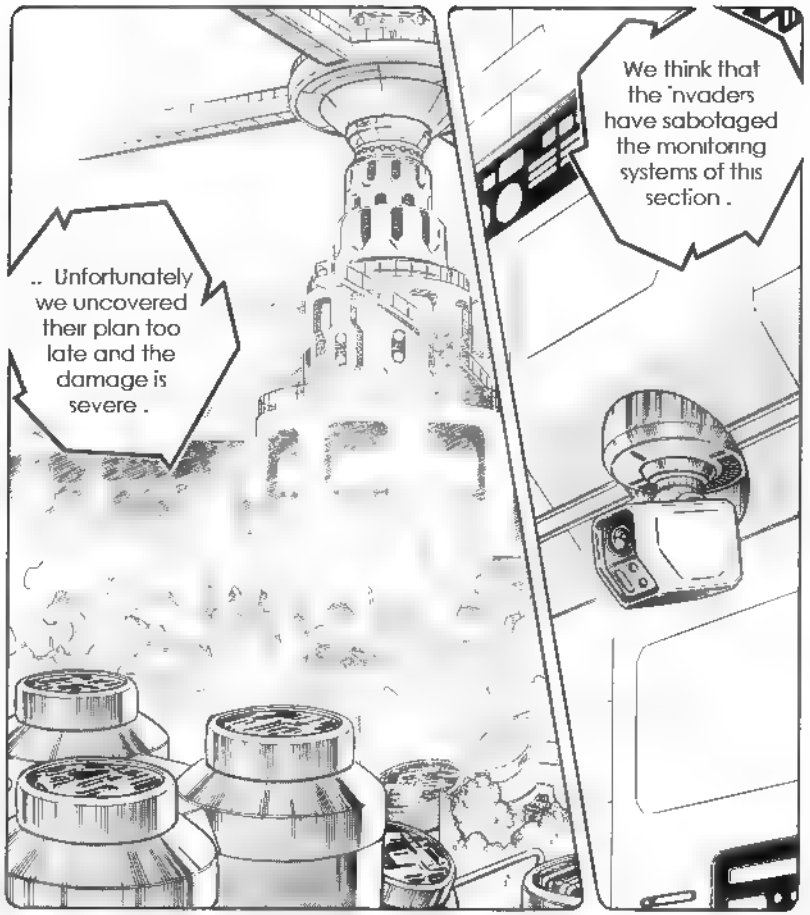
Cloud Gate Section of data control



Here is the surveillance of the main offices of the lower level.
. These are the images of the artificial reservoir under ground



A hole has been spotted in the wall of the artificial reservoir from the exterior .
Two guards on shift were killed. .
. . We believe that the Guyver entered from this point .



.. Unfortunately we uncovered their plan too late and the damage is severe .
We think that the invaders have sabotaged the monitoring systems of this section .

Then this was the cause of the vibrations all along?

There is someone that helps the enemy!
So From 'nside Cloud Gate
What?
.....
uh
Where are Krumeggnic and the other two lords right now?
!!
But at this time it 's not possible for us to pinpoint their oca- tion
It seems that they are not in the contro room

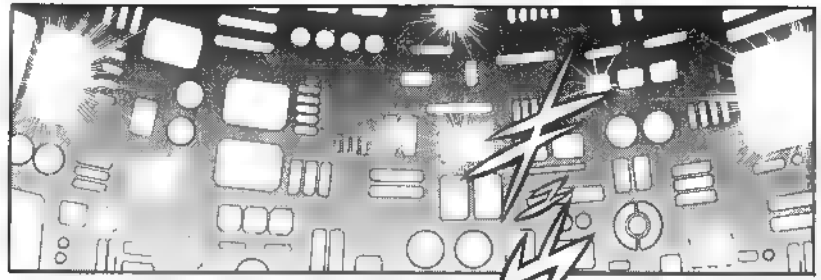
He entered from the artificial reservoir underground that is sparsely guarded, and it sabotaged the monitoring systems.
Just as I suspected, he came from un derground. But...
...Therefore, it seems that there is someone with him that knows the layout of the inner structure. But how is this possible...?
With all this surveil- lance how on earth were we not aware of this?
But how 's th's pos sible ?
But all of the monitoring sys tems and alarms on the route they passed..
Were tampered with some how
It It displeases me

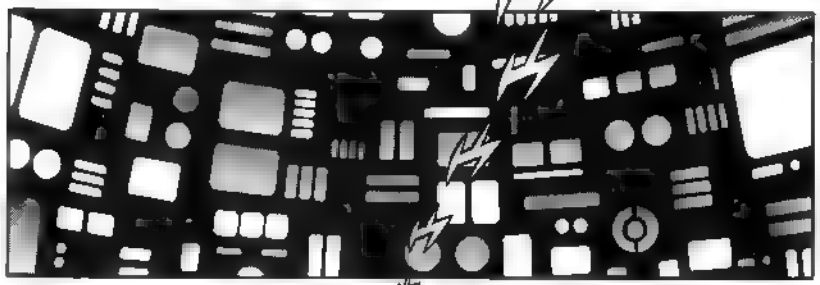
THE SYSTEM HAS BEEN SABOTAGED!
n the present situation cannot carry out reliable mon tor- ing?
Th . This is a counter feit image
SO, IT'S AS I FEARED, IT WAS THEM?
.. To lure Guyver into the heart of the base?.
... what are they planning

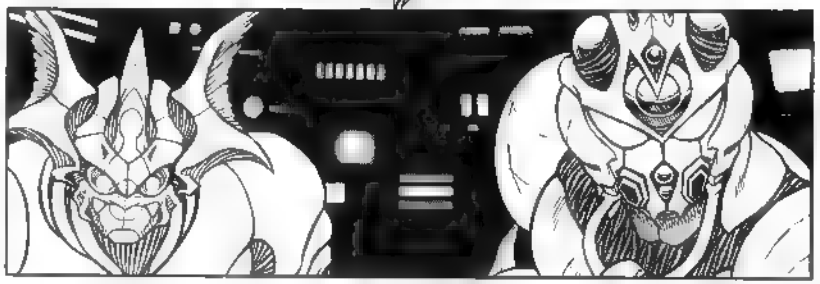
BRING IT UP ON THE SCREEN!
WHAT IS THE SITUATION OF THE LABORA- TORY ON THE FOURTH LEVEL?!
!?
For now there doesn t seem to be anything out of the orid nary

I REPEAT! THE SQUAD OF EMERGENCY HYPER ZO-ANOID...
LABORATORY
THE SQUAD OF EMERGENCY HYPER ZOANOIDs ARE TO GO IMMEDIATELY TO THE LABORATORY ON THE FOURTH LEVEL!
EMERGENCY! EMERGENCY!

A
APTOM?!



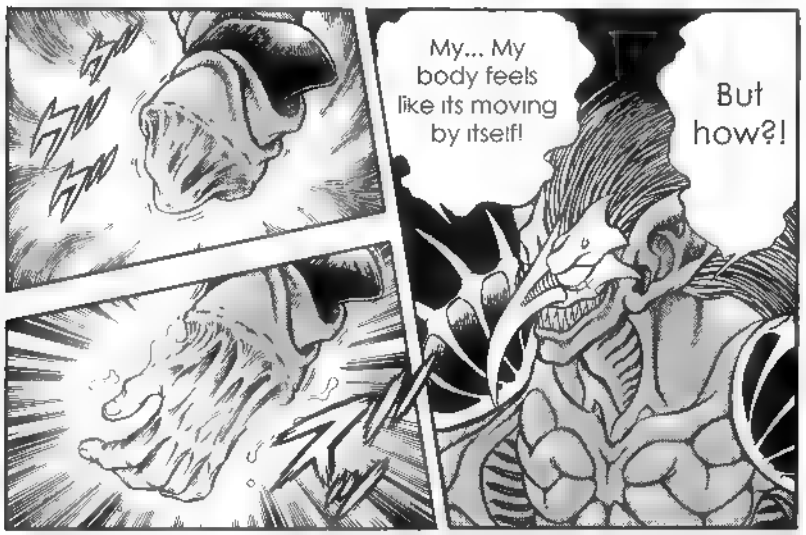




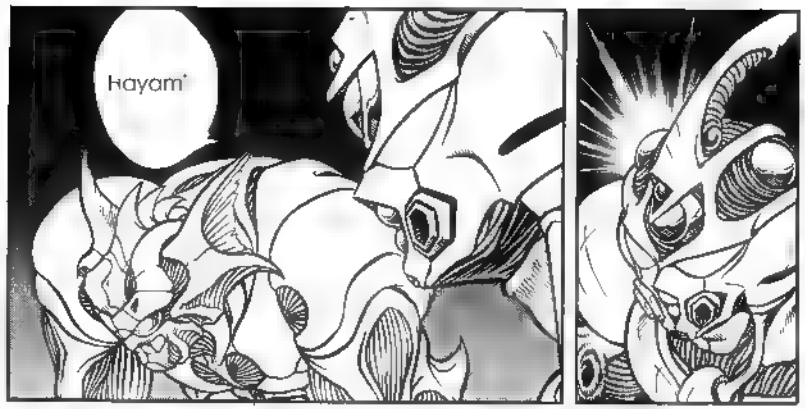
Uh...
I'll try to make my escape .
It is time!
.....

Damn...
...
DAMN YOU!

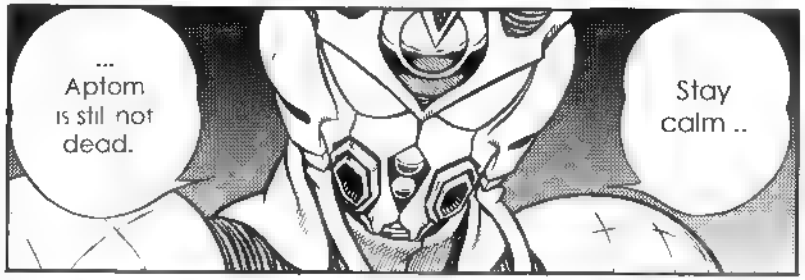
URGH!



My... My body feels like its moving by itself!
But how?!

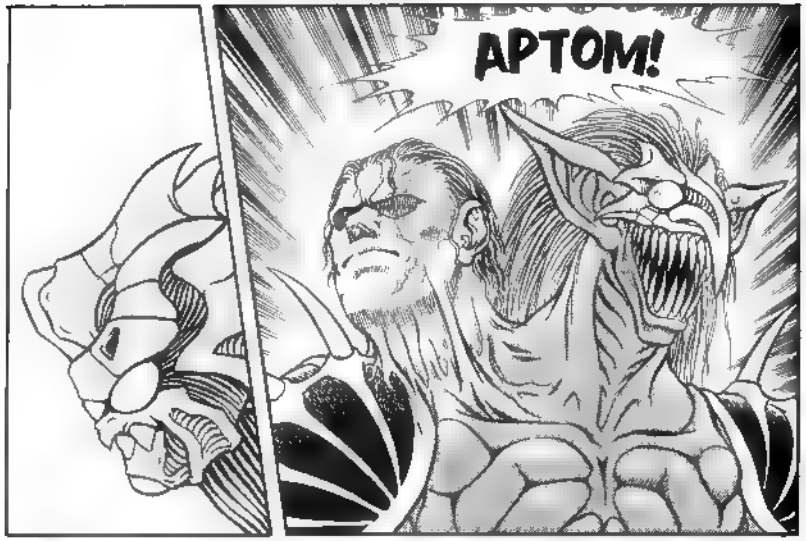


Hayam'



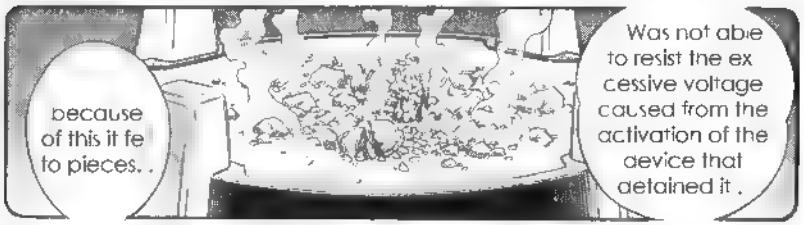
... Aptom is stil not dead.
Stay calm ..

URGH!
... Wnat?
Wha .

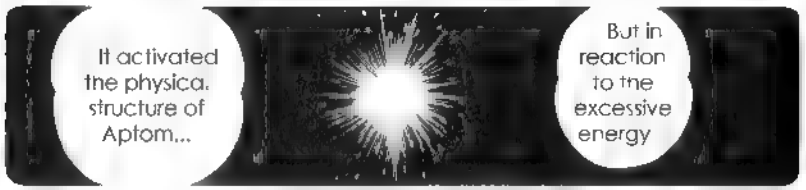


APTOM!

The body of Aptom, that we found in a coma tose state be cause of the restra'nts



because of this it fe to pieces. .
Was not abie to resist the ex cessive voltage caused from the activation of the aevice that aetained it .



It activated the physica. structure of Aptom...
But in reaction to the excessive energy

What the...

!!!!!!H!

EEEH!

It was just a smal part

There was also a body that he cou d adopt present
in close proximity to him..

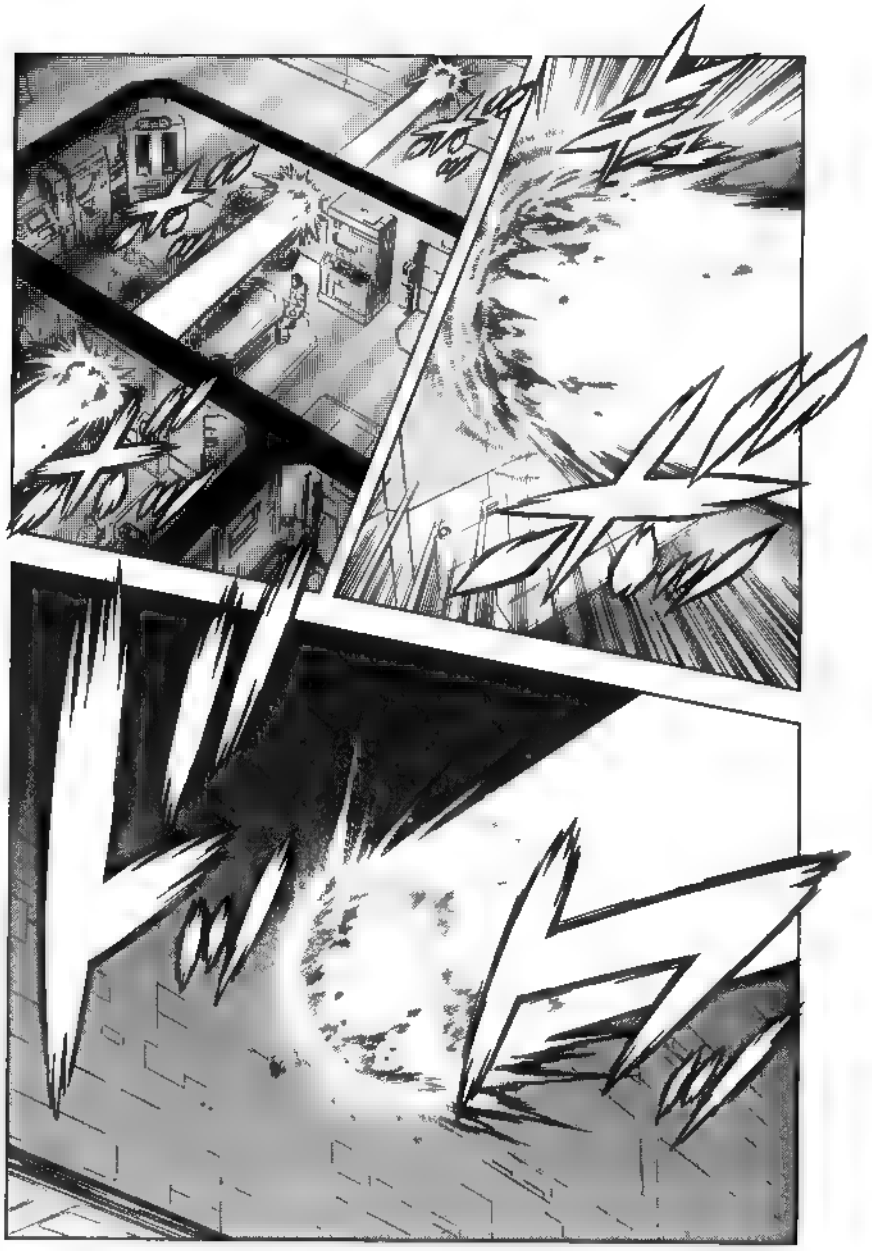
LE... LET HIM GO, APTOM!
WHAT'S COME OVER YOU?!
Urgh?! But then ..
... HE IS TRYING TO ABSORB INTO ME?!

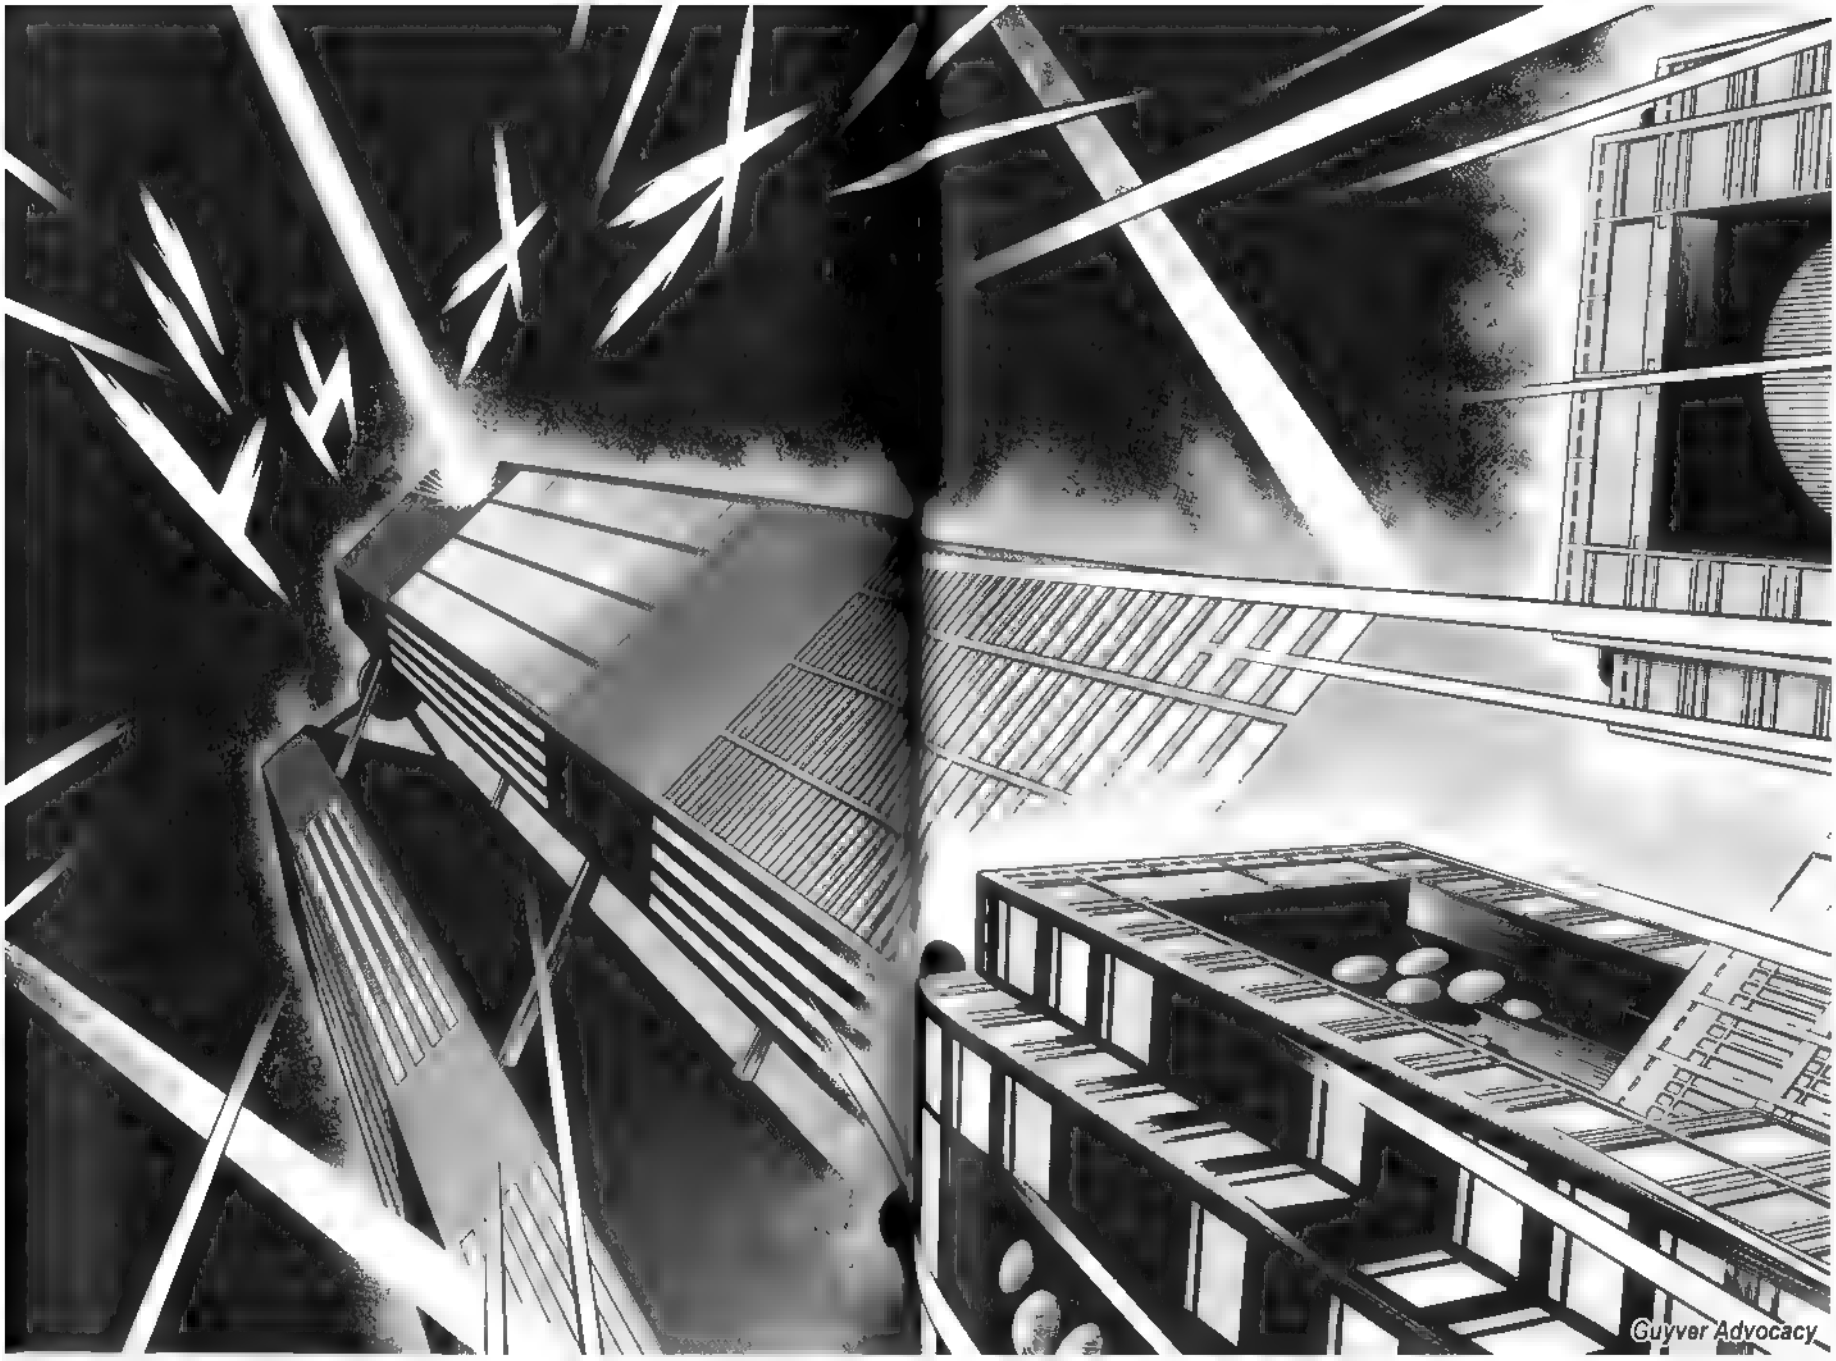
I BEG OF YOU, STOP!
STOP, APTOM!
SHO!
!?
Yes
Are you ok?
And it activated a system of de fence
The control medal reacted to the corrosion of its physical structure

OH NO!
DJUK-!

.. The Aptom that we know?
. Is this really .
Whatev er s hap pened.
!?

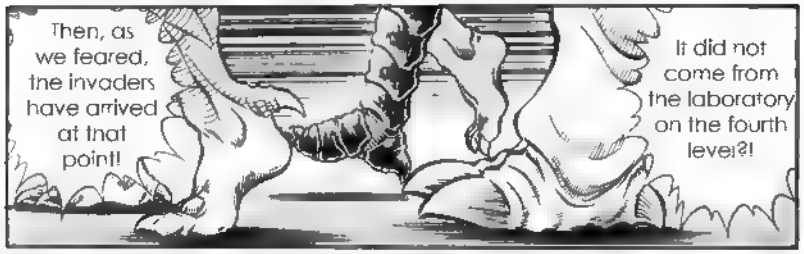


It even managed to melt the reinforced steel wall!

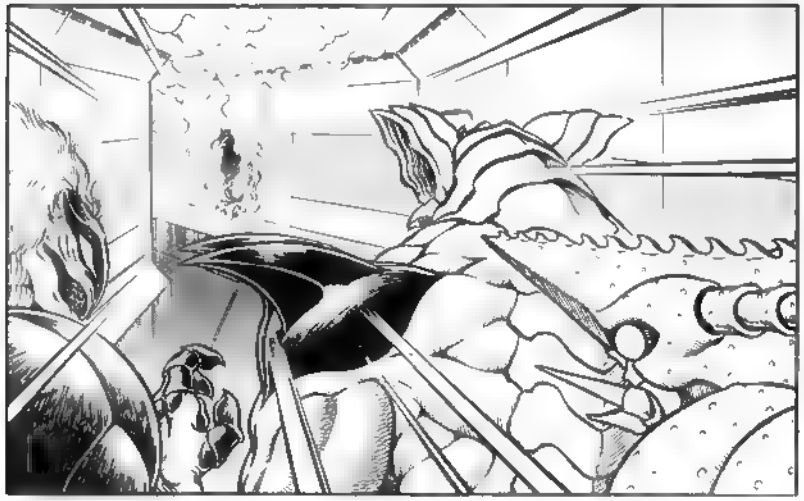


Guyver Advocacy

WHAT WAS THAT?!



Then, as we feared, the invaders have arrived at that point!
It did not come from the laboratory on the fourth level?!

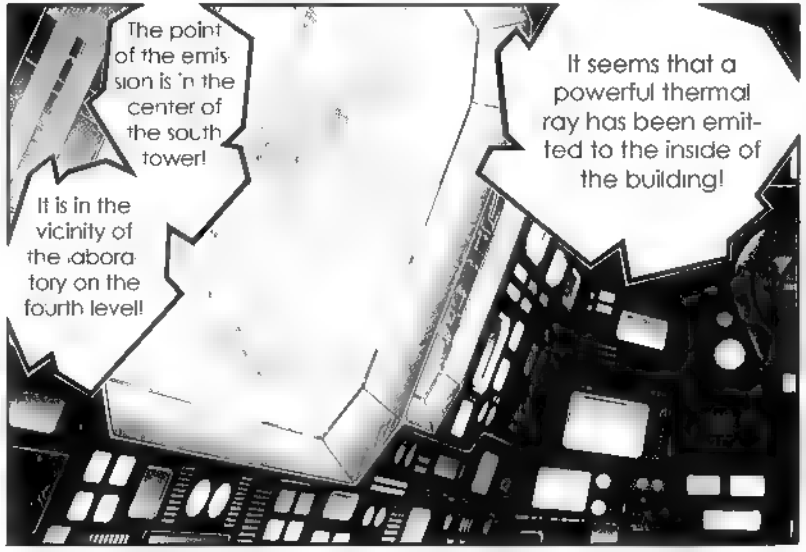


!?
Guyver Advocacy

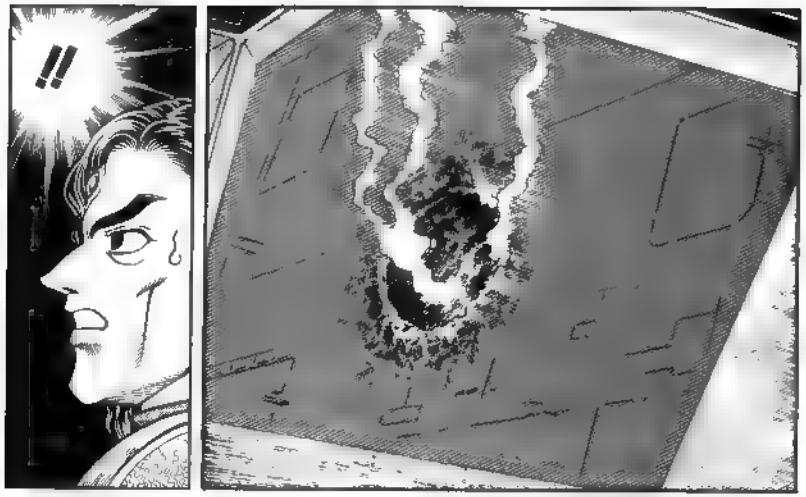
WE WILL NOT ALLOW YOU TO ESCAPE!
STAY THERE!
WE WILL TAKE ANOTHER ROUTE TO CUT THEM OFF!
REPORT THIS TO GROUP B THAT WATCHES THE EAST HALL!

If we remain here we wil both die!
We should flee! Quickly this way!
!!
Tsk ..
It is the GUYVER!
Over there!

WHAT THE DEVIL HAS HAPPENED NOW?!
WHAT IS GOING ON?!

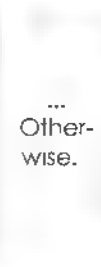


The point of the emission is in the center of the south tower!
It is in the vicinity of the laboratory on the fourth level!
It seems that a powerful thermal ray has been emitted to the inside of the building!

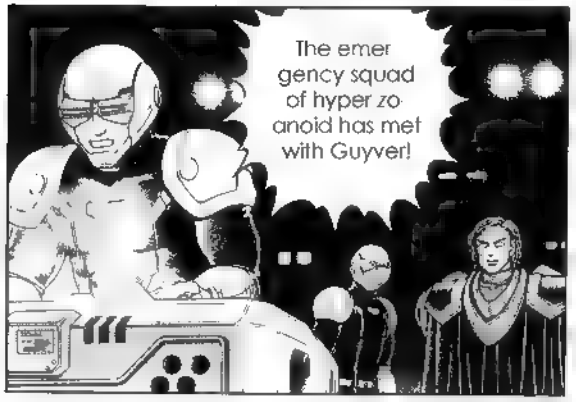


!!

. It was Guyver.



... Otherwise.



The emergency squad of hyper zoanoid has met with Guyver!

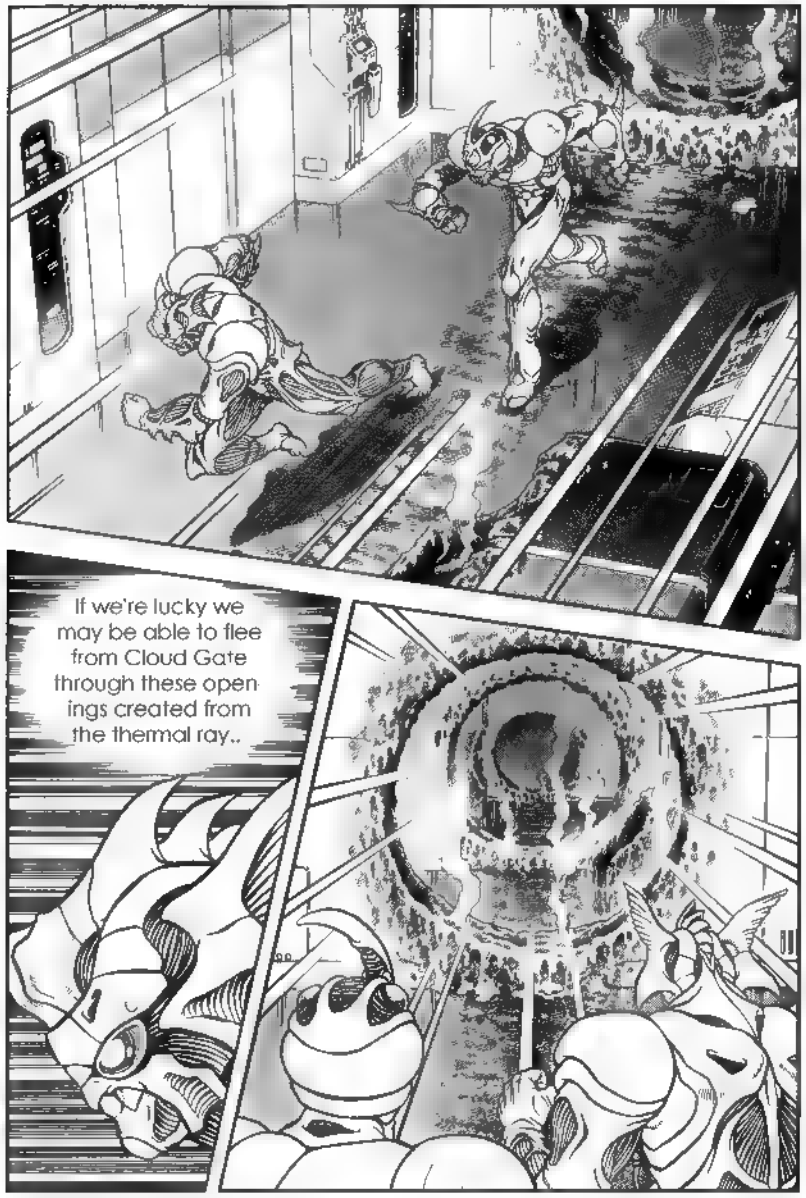
Not all of us are in a position to emit a thermal ray of such power...
... And if it was not a Zoalord, it should be one of the more able hyper zoanoid ..

Guyver one!
As I feared, he has found his way inside!
BUT WAIT!
!?
WHAT THE DEVIL IS THAT?!

ACTIVATE THE MONI-TOR!

Guyver Advocacy

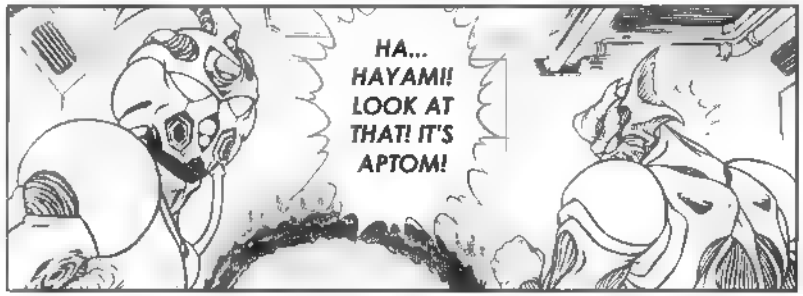
Chapter 118
THE ESCAPE FROM CLOUD GATE
BUT THAT...
... THAT CAN'T BE APTOM?!
Guyver Advocacy



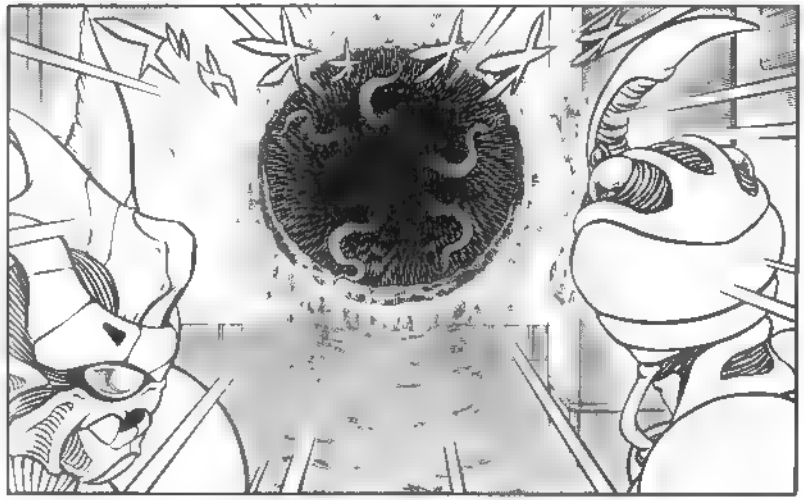
If we're lucky we may be able to flee from Cloud Gate through these openings created from the thermal ray..

Guyver Advocacy

!!
. Why aren't any hyper zoanoid pursuing us?
But I wonder

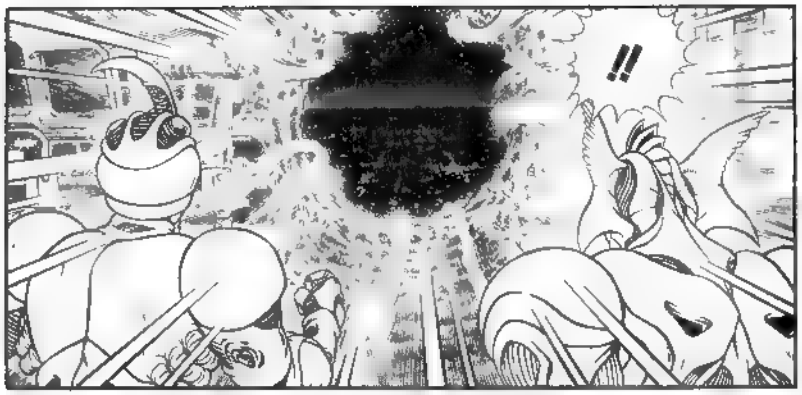


HA... HAYAMI! LOOK AT THAT! IT'S APTOM!



Not even he knows what is happening to him .. Its possible he is acting unconsciously
I do not know precisely what has happened, but .
It is likely that
Acting unconsciously?
It happened when control was compromised
It activated a self defense mechanism to save the life of the host of the bio-armour
In the case of the Guyver...
. Or rather, The Guyver has fallen into a similar state various times...
I have been likewise

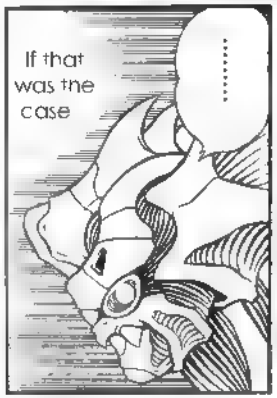
!!
IS THAT REALLY APTOM?!
APTOM?!
They were devoured by Aptom!
The hyper zoanoids that we encountered
What has happened to him?.
But why?!



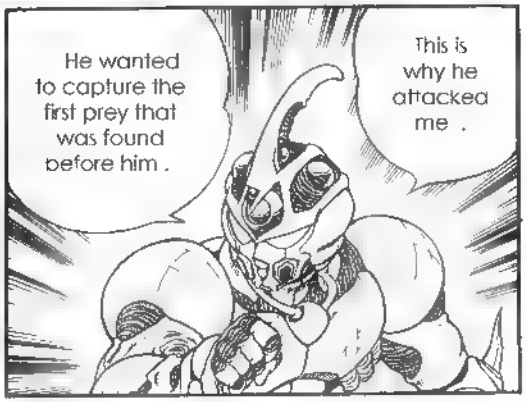
!!

YES WE DID IT!

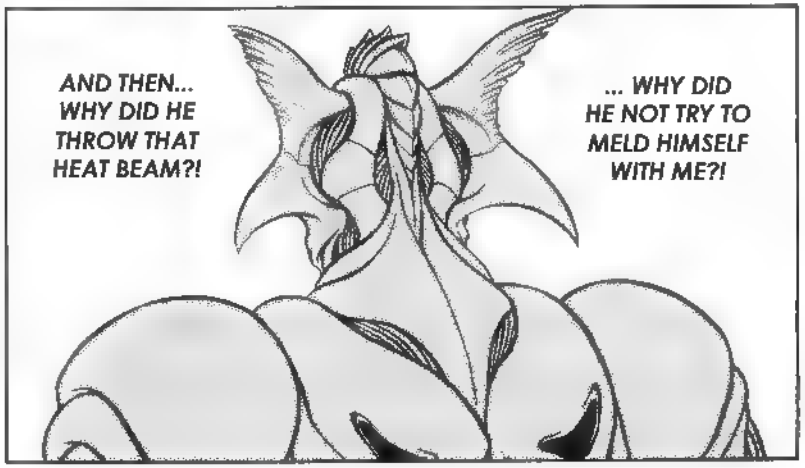
Mimicking his enemies and melding himself with them
I believe that it is the natural instinct of the creature for battle that motivates him. This is because he continues to evolve at his own will...
In the case of Aptom



If that was the case
.....



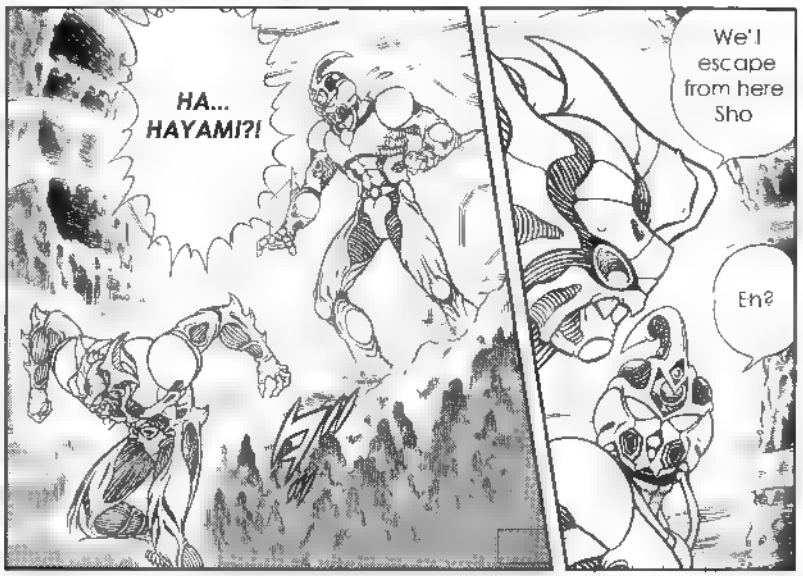
He wanted to capture the first prey that was found before him.
This is why he attacked me.



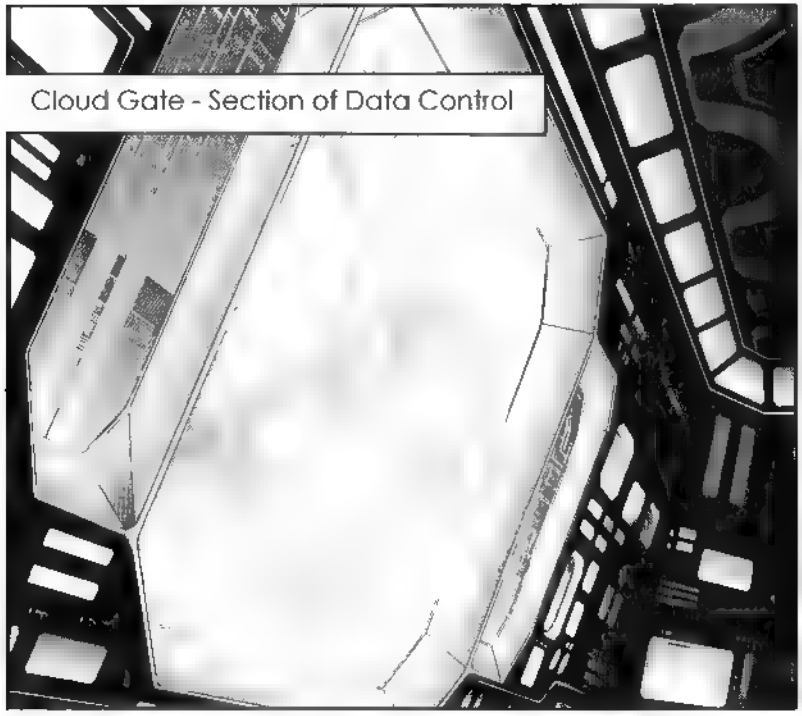
AND THEN... WHY DID HE THROW THAT HEAT BEAM?!
... WHY DID HE NOT TRY TO MELD HIMSELF WITH ME?!

ヒィィィィィィ
Guyver Advocacy

Gravity control-ler!
TSK...

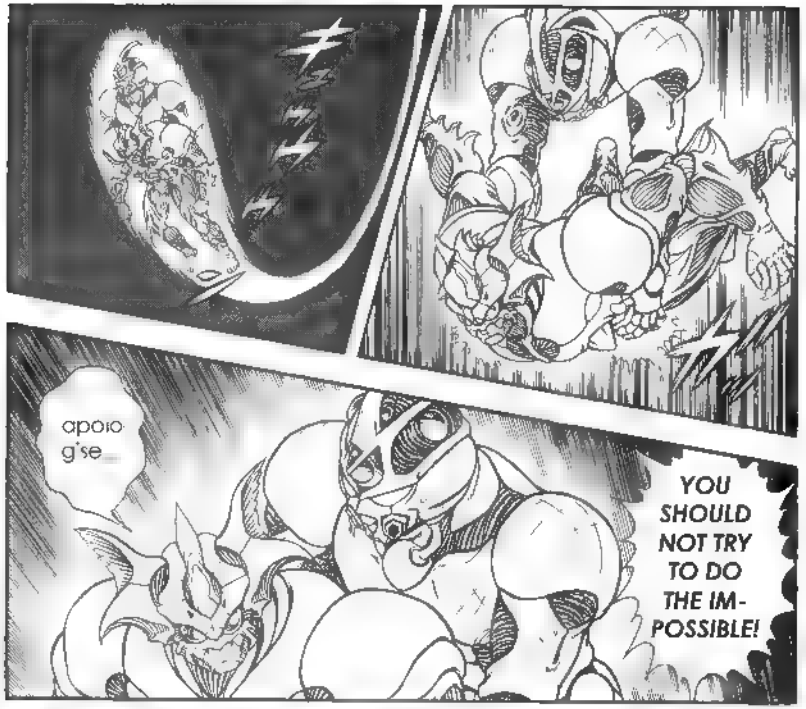


HA... HAYAMI?!
We'l escape from here Sho
Eh?



Cloud Gate - Section of Data Control

Also the bio-sonar type carry out a di-versionary attack!
Blaster platoon! Begin the attack on Guyver im-mediately!

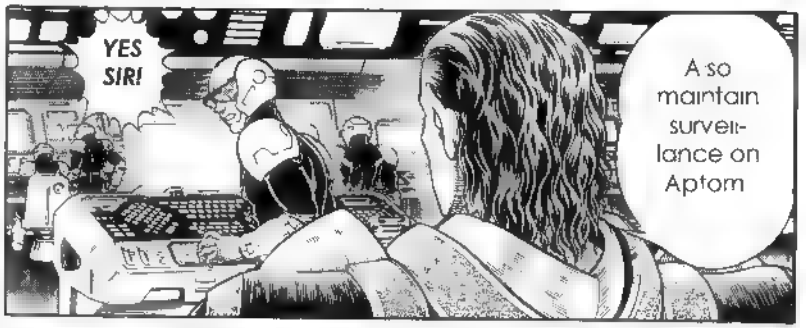


apoio g'se...
YOU SHOULD NOT TRY TO DO THE IM-POSSIBLE!

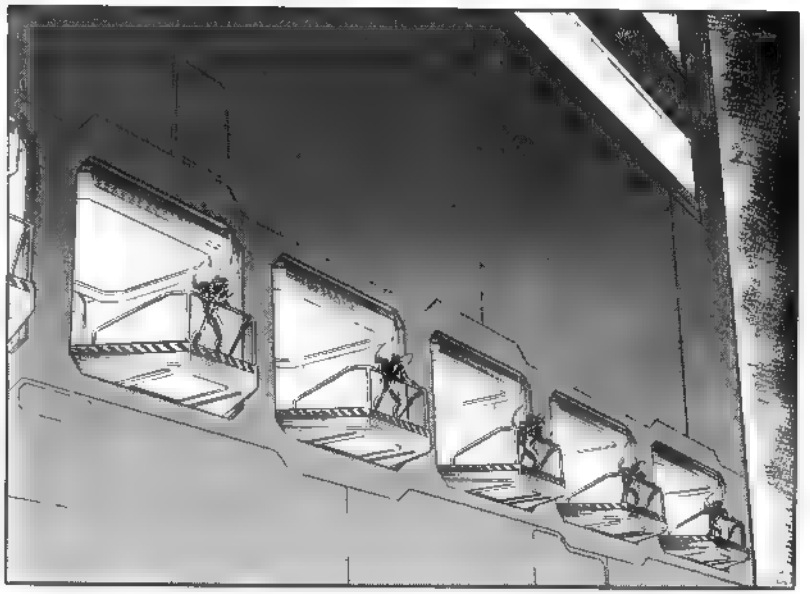
!!
But I thought that if you had not saved us
could not have freed you from Aptom

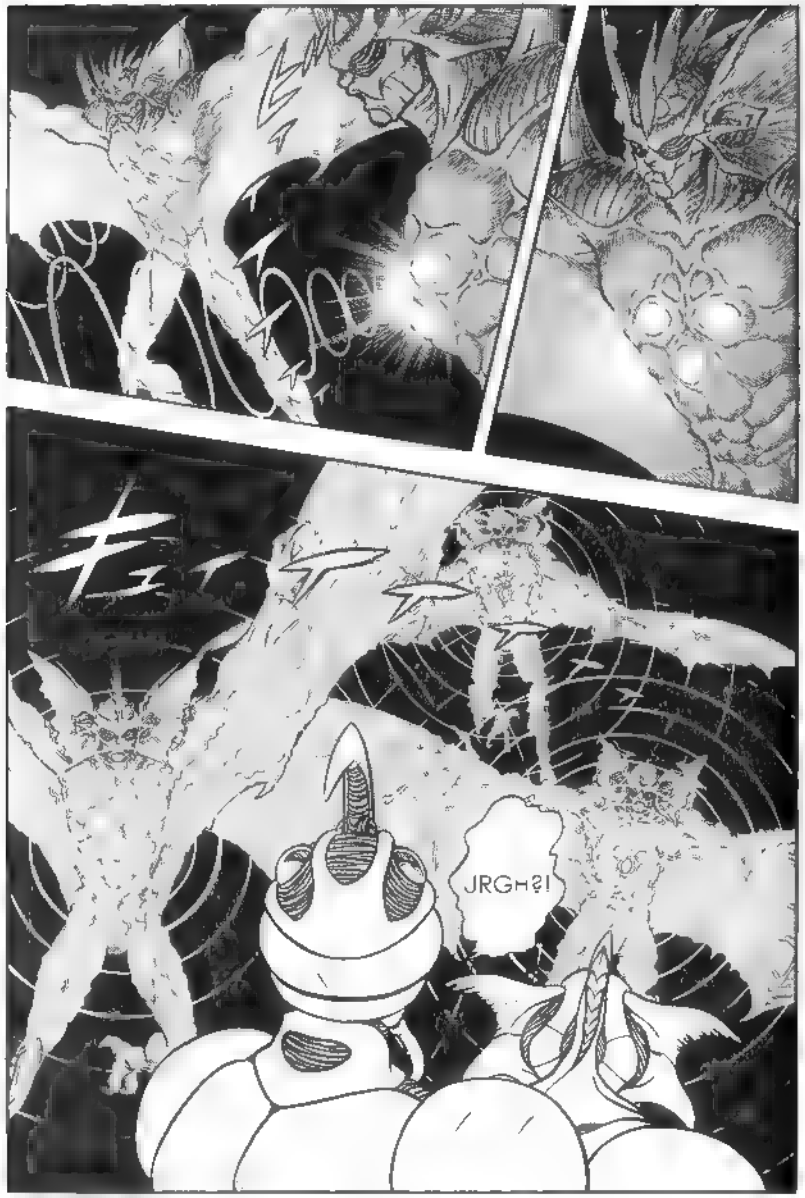
AAAH!

DO NOT ALLOW THEM TO ESCAPE!



YES SIR!
Also maintain surveillance on Aptom





Guyver Advocacy

Guyver is falling!
The key point of impact is On the helport in the terrace of the south tower in the town hall of Tokyo
Not even the gravity controller works!
I am unable to move as if my body is paralysed!
No can't do any thing

AAAAH!
IT TAKES YOU, SHO?!
It is actually the control medal that is on the forehead...
... The weak point of the Guyver!
.. Concentrate the supersonic attack on the head of the Guyver
Good... Now it cannot put up any resistance...

Urgh
Hayami?
ARE YOU OK, SHO!
SHO!
Yes am grateful
I would have been severely injured had you not broken my fall
We're lucky . to be healthy and safe...

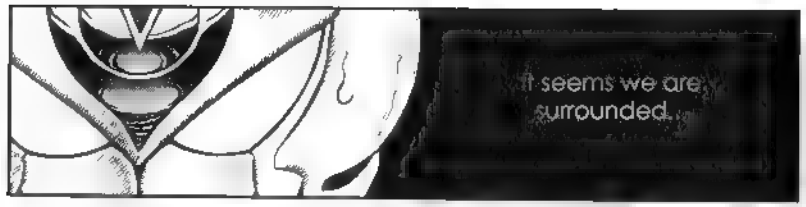
Chapter 119
EVIL APTOM
Guyver Advocacy

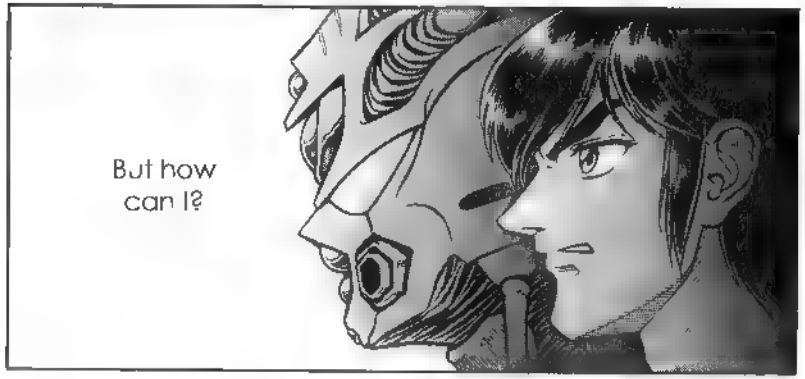
The bio-sonar type have been incorporated into Aptom!
And now it is about to and on the terrace of the town ha

It couldn't possibly...
No...
Does it intend to bond itself to the Guyver?

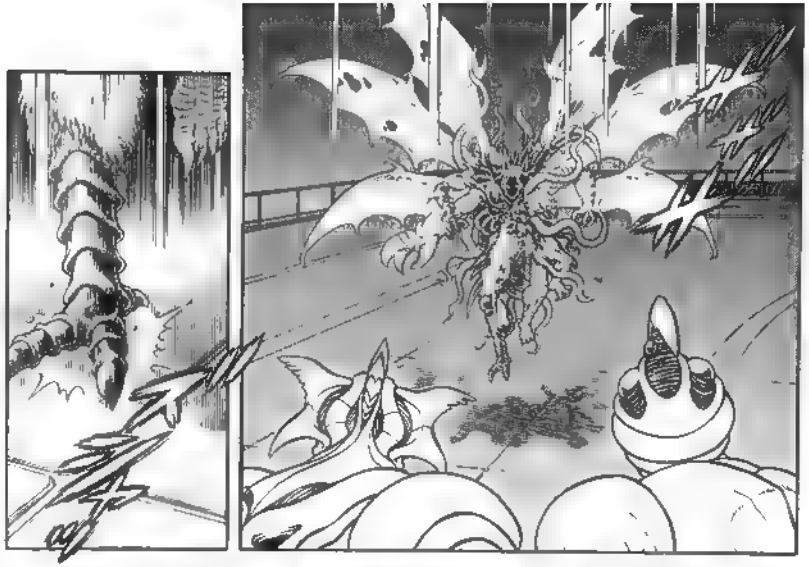


It seems we are surrounded.

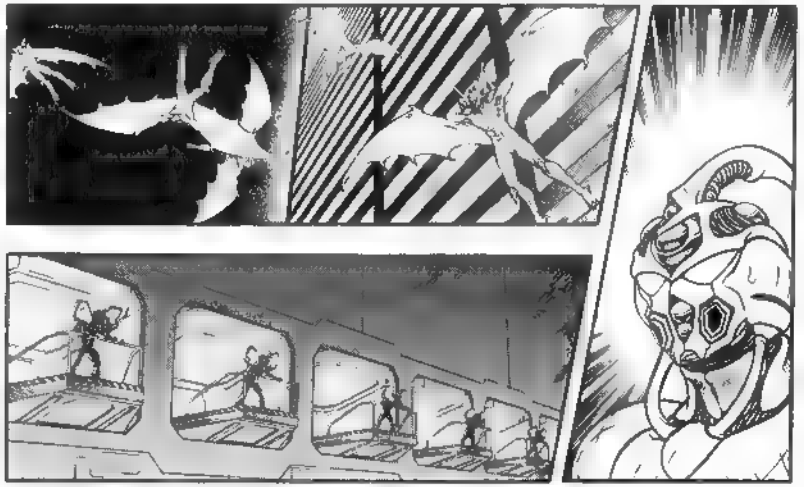
We could easily make a route of escape At all costs I must try to awaken him
If Aptom was not in a state of unconsciousness and continued to consume whoever stood in his way



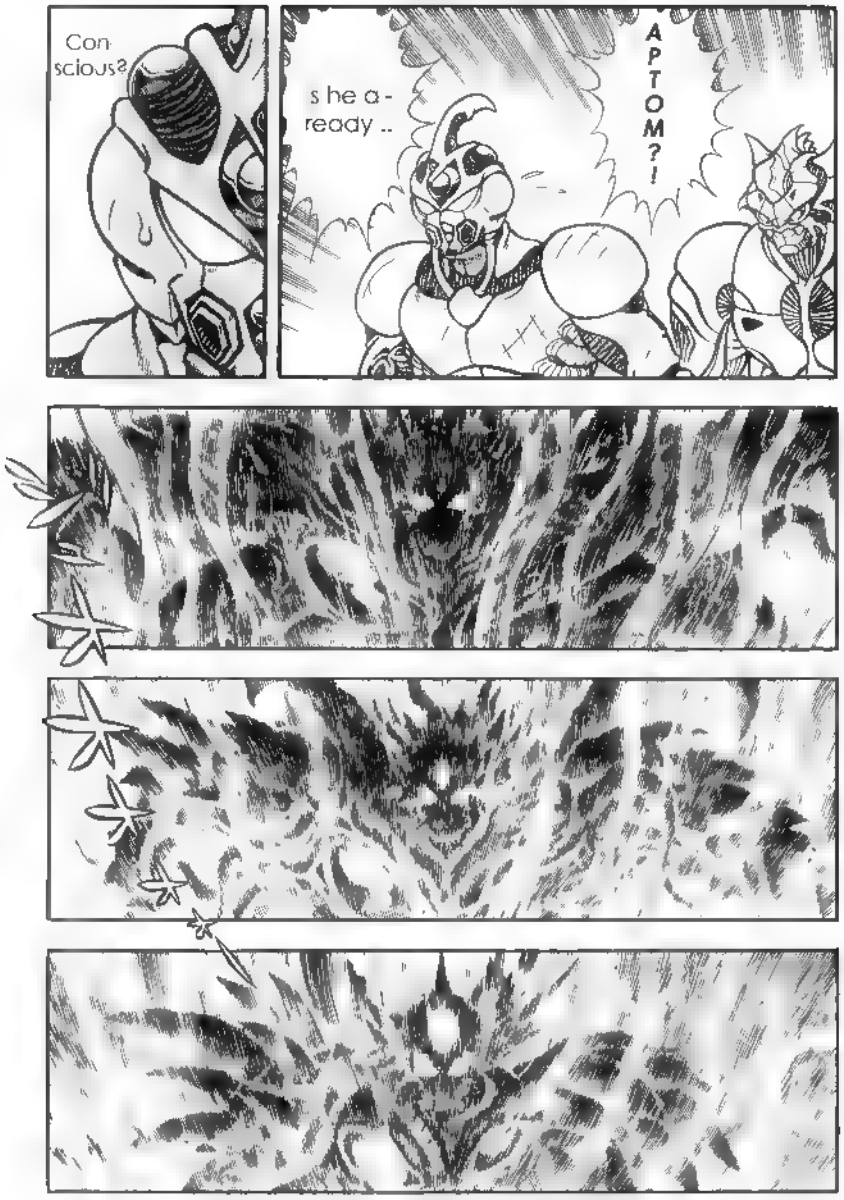
But how can I?



Aptom!! What the hell have you transformed yourself into?!



I understand... Things are as they should be, eh...?!
UHM...
!?



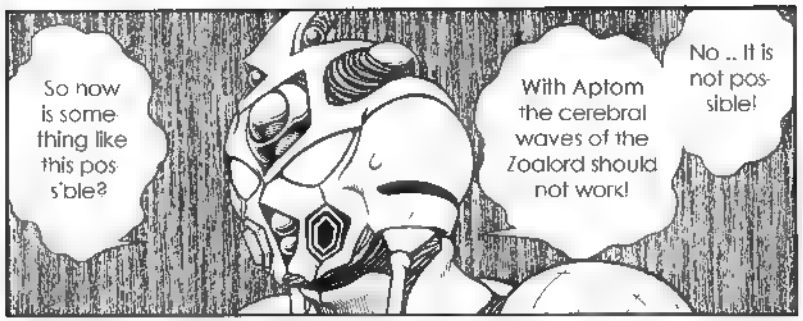
Con-scious?
s he a-ready ..
APTOM?!

...
He he he...
He he..
A... APTOM?!

.. But it is not familiar to me, it is very different from the zoanoid...
.. Finally I learned how to maneuver this body..

That is not the voice of Aptom!
!!

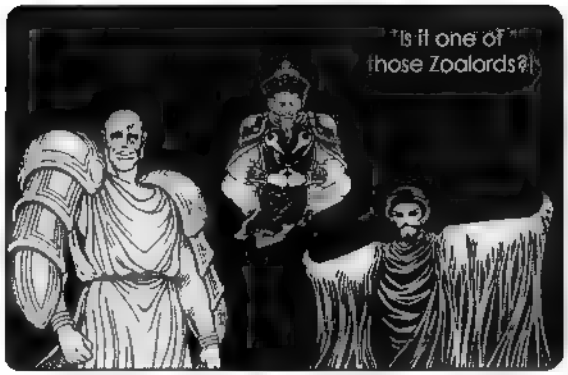
Guyver Advocacy



So now is some thing like this pos s'ble?
With Aptom the cerebral waves of the Zoalord should not work!
No .. It is not pos- sible!

BLT HOW
So, as i feared Aptom is being controlled by the enemies..

This time for you, escape is impossible...
You may have managed to escape from Akarigaoka, but...
Silence... listen to me, Guyver One! Or should I say, Sho Fukumachi!



Is it one of those Zoalords?!
Whose voice is that?

.. My name is Kabrahl Kahn, one of the twelve lords!
He he he... That's correct...

... I was not accus- tomed to this form, but you've given me just enough time to learn..
It's body is now entirely under my con- trol...
